Men "Lower Down" Testify to Assisting in Contraband Conspiracy Plot

SAN FRANCISCO, Sept. 20.—Robert Donaldson, assistant superintendent of navigation of the Pacific Mail Steamship company, and Henry Gallagher, United States customs inspector, were indicted tonight by a federal grand jury, charging complicity in an opium smuggling conspiracy in which, it is said, many other men are implicated. Warrants for their arrest have been issued, and they are being sought by government officials.

The indictments were based upon testimony of David Powers and Emil Fiedler, who were arrested in Oakland, December 13, 1911, with several hundred tons of contraband opium in their possession.

Powers testified before the grand jury today that he had been approached by Donaldson in December, 1911, with a proposition to assist in landing 320 tons of opium, then concealed on the Pacific liner "Siberia".

Gallagher, according to the witness, first appeared in the plot in connivance to land the drug in Oakland. Through the defection of a Chinese accomplice, Powers and Fiedler were arrested.

"TAFT AND T. R. AGREED"—BRYAN

BUTTE, Mont., Sept. 20.—William J. Bryan closed tonight his campaign trip through Montana with a speech before a large assemblage in a local theater. He will go into Idaho tomorrow.

Mr. Bryan tonight repeated his plea for the election of a Democratic senate, as well as a Democratic president, so that party policies and pledges might be given force.

One reason why he attended the Chicago Republican convention, Mr. Bryan said, was that he had become accustomed to one exciting convention every four years, and that, "fearing our convention might be tame, and knowing that the Republican would not be I went, with an abundance of caution, rather than risk the loss of my quadrennial stimulus."

ROZEMAN, Mont., Sept. 20.—Declaring that when presidents and ex-presidents fall out, honest people come to their own, William J. Bryan, in two addresses here today, made a scathing denunciation of "Colonel Roosevelt," saying that the latter had come into the vineyard of progressivism at "a quarter to twelve."

He declared that more trust had come into being in the Roosevelt administration, when he had a chance to

SEVERAL RECOMMENDATIONS FOR BETTERMENT OF WATER SYSTEM

Contemplating the betterment and protection of the Colorado Springs water system, the city council yesterday, after a long session, adopted several recommendations for the betterment of the water supply.

The recommendations are: That the city should immediately employ one or more competent hydraulic engineers to act in an advisory capacity to the municipal affairs committee of the Chamber of Commerce; that a special report to the city council yesterday, which was read and referred to the water department with instructions to report back to the council.

W. H. Spurgeon is chairman of the committee, and the other members are William Lennox, H. A. Smith, E. D. Mart, David Elliot, B. F. Webster and H. C. Hall. The report suggests that steps be taken to reinforce the dam of reservoir No. 4 and make it safe; that recommendations be made as to the best methods of preventing the pollution of the city water system, protecting the supply from Lion, Cabir and Sheep creeks, and eliminating possible contamination of the water which passes through Manitou. Another recommendation is that the caretaker's house for reservoir No. 5 should be relocated, so that he can exercise a greater degree of watchfulness over the valves supplying the town of Victor.

The report further suggests that the matter of seepage, or loss of water, from reservoirs Nos. 4 and 5 should be considered with respect to feasibility, possible cost and best means of accomplishment.

The committee suggests the experts

JOHNSON SAYS TAFT WILL RUN THIRD

Addresses Executive's Fellow Citizens Says Wilson Is Untried Politician

CINCINNATI, Sept. 20.—Governor Brian M. Johnson of California, who visited the home city of President Taft tonight, said his fellow Californians thought the nation's chief executive will run third in the coming election.

"Each day," said the vice presidential candidate, "it becomes more evident to me that President Taft is entirely eliminated from this fight. I now have visited 18 states, and everywhere I find the sentiment the same. I think he will finish third."

"And so with the president eliminated, you have to choose between two candidates."

"Of Governor Wilson as a man, I have naught but words of commendation. He may be a very fine gentleman, but he is untried. His strength in a great crisis has not been shown."

The meeting was held in Music hall. This was the first Progressive meeting held here since the party was organized.

IMPORT JAPS TO BREAK UP STRIKE

BINGHAM, Utah, Sept. 20.—The third day of the strike of the copper miners has failed to bring out any new developments in the situation. Prospects for a settlement were as far off tonight as when the strike first began.

The strikers have crowded the streets all day but have made no demonstration, not even when the Utah Copper company imported 200 men this afternoon who are supposed to be strikebreakers. Not a shot has been fired in the camp today and the district is quiet tonight.

The sheriff's forces now comprise 250 men, most of whom are armed with rifles. It was said early tonight that an attempt would be made to open the workings at 11 o'clock, but up to that time there were no indications of men going to work.

Twenty Japs Are Imported.

The first move toward breaking the company's property, whose 2,000 employees went on strike for higher wages, was made this afternoon when 20 men, white and Japanese, were brought over the Denver and Rio Grande railroad and escorted by deputy sheriffs to the company hotel near the mines.

The strikers offered the advance guard of the nonunionists with apparent indifference although they had been jostling about the railroad station all day with the avowed purpose of discharging incoming laborers from going to work.

Earlier in the day there was a movement of trains over the tracks on the Utah Copper, under guard and the engineers and firemen, at a called meeting, decided unanimously to continue at work if they were assured protection.

BRADLEY IS AGAIN BOURBON CHAIRMAN

DENVER, Sept. 20.—The new Democratic state central committee organized today, selecting George Bradley, chairman. Before the meeting of the committee, the candidates for state offices, at a caucus, decided to support H. A. Hicks, a progressive Democrat, for the chairmanship. Hicks' name was presented by former Gov. C. S. Thomas, who later withdrew his candidacy.

The committee elected Charles H. Leckie, secretary, and Mrs. Gertrude Lee, vice chairman.

SEVERAL RECOMMENDATIONS FOR BETTERMENT OF WATER SYSTEM

Contemplating the betterment and protection of the Colorado Springs water system, the city council yesterday, after a long session, adopted several recommendations for the betterment of the water supply.

The recommendations are: That the city should immediately employ one or more competent hydraulic engineers to act in an advisory capacity to the municipal affairs committee of the Chamber of Commerce; that a special report to the city council yesterday, which was read and referred to the water department with instructions to report back to the council.

W. H. Spurgeon is chairman of the committee, and the other members are William Lennox, H. A. Smith, E. D. Mart, David Elliot, B. F. Webster and H. C. Hall. The report suggests that steps be taken to reinforce the dam of reservoir No. 4 and make it safe; that recommendations be made as to the best methods of preventing the pollution of the city water system, protecting the supply from Lion, Cabir and Sheep creeks, and eliminating possible contamination of the water which passes through Manitou. AMERICANS IN BATTLE WITH REBELS

Admiral Sutherland in Charge of Forces in Nicaragua Re- ports Engagement

ENGLAND AWAITS RESULTS

Government Officials Think U. S. Troops Have Put End to Famine

WASHINGTON, Sept. 20.—Severe fighting between American naval forces and Nicaraguan revolutionists is believed to have occurred in the last few days near Barranca, although reports from the scene are so meager that officials here have no definite idea of what has happened.

Rear Admiral Sutherland is in the field, possibly with upward of 2,000 men, and if plans have not miscarried by this time, he has cleared the route of the National railway of opposing rebels and relieved the famine-threatened city of Granada.

The Washington government, in sending relief to the beleaguered city, Granada, populated by many foreigners, had hoped to avoid any pretext for landing European military or naval forces on Central American soil.

British to Await Results.

The British consul general at Managua, and the British vice consul at Matagalpa, have reported two British subjects murdered by the rebels at Achagua. It is expected, however, that the British government, before taking action on its own account, will await the results of the American campaign.

A delayed cablegram from Admiral Sutherland, dated Managua, 11 o'clock p. m., September 17, and reporting that American airplanes and marines were fired upon as they attempted to open the railway, and the navy department today. Delayed reports yesterday said the Granada rebel party had been fired upon last Sunday; that the officer in command had halted and sent to Managua for reinforcements, and that Admiral Sutherland had gone to the rescue with two companies of marines and a detachment of soldiers.

Whether there was more firing from the rebels before the additional American

ALLEGED FRAUD NIPPED IN BUD

MAN POSING RELATIVE RINGLINGS ARRESTED

Buying Finery for Girl; Couple Met Tuesday and Were to Wed Here, Is Said

Before his well-formulated plans could materialize, a man aged about 21, giving the name of Al Ringling, Jr., and claiming to be related to the Ringling Bros. of circus fame, was arrested by the police at noon yesterday for the Pueblo police on a charge of passing a worthless check. Incidentally, a supposed big forgery on local business men was nipped in the bud.

With the man was Miss Mabel Church, 19 years old, who lives at 227 East Seventh street, Pueblo. The couple came here Thursday, hiring an automobile in Pueblo, and giving the impression that they had plenty of money. It is said they met at the state fair last Tuesday and intended to marry here. It is thought they had an extensive shopping trip.

The man purchased \$65 worth of goods at the Colorado Springs Dry Goods company, consisting of a \$65 hat and other finery for Miss Church, including silks, gloves, etc. About \$125 worth of merchandise for the girl was bought from Gus Stalsky, furrier, including an \$85 seal skin coat and other furs. The total amount of goods purchased at both places came to \$208.

He showed a check for \$1,500 on a Manilla, Ia., bank, and said he would go to the telephone office and procure identification so that the different articles could be paid for and taken away. They were laid away, but before he returned with the necessary identification, the police took a hand in the game and escorted both the man and woman to the police station. The goods purchased were not delivered.

Names Politicians.

The police do not believe that the man's name is Ringling. Several business cards were found in his pockets, with the words "Manilla, Iowa," engraved upon them, while the name "Al Ringling" was stenciled, and appearing

THIEF LOOTED MORGAN'S HOME WHILE ALL SLEPT

NEW YORK, Sept. 20.—Burglary of the mansion of J. P. Morgan, Jr., while Mr. Morgan and his 40 servants slept, has been confessed, the police say, by John Bernauer, whom they arrested today. In his possession were found seven watches, medals, diamond pins and other articles of jewelry stolen from the house. The burglary took place last January, but news of it was not made public until some time afterward, when Mr. Morgan notified the police that he would pay a reward of \$5,000 for the recovery of the stolen articles, many of which were priceless because of their associations. The prisoner gave his name as John Bernauer, said that about 4 o'clock on the morning of January 25, while he was in the vicinity of the Morgan house, he found one of the back doors unlocked. He went into the vestibule and took off his shoes. In stocking feet, he visited almost every room in the big house, finding servants asleep. He found little attractive to him until he reached Morgan's own room. He crept up to a bureau and ransacked three drawers.

REFORM ROSS WITH A CLIP, SAYS I. R.

Improvement Impossible from Inside, Is Statement in Nebraska Speech

PROGRESSIVE LEADER TELLS OF REASONS FOR QUITTING RE- PUBLICAN PARTY

OMAHA, Sept. 20.—A defense of his action in quitting the Republican party and taking the lead in the formation of a new party was given today by Colonel Roosevelt.

He said he had been urged to remain in the Republican party, but that "the only way you can reform that kind of man is with a club." In justification of his action, he declared that the Republican managers were "not having worse than they ever behaved before."

Colonel Roosevelt spent the day in Nebraska. He made his first speech at Oxford, Neb., early in the day, and the strains of "Hail to the Chief" as it was rendered by the Oxford brass band, served the purpose of an alarm clock and got him out of bed. The colonel traveled in a leisurely way across Nebraska, with a speech for every stop. At Lincoln he spent three hours and he put in the evening in Omaha. The Omaha auditorium and the Lincoln auditorium were filled as thickly as the police would permit.

SUFFRAGETTE, SELF STARVED, RELEASED

DUBLIN, Sept. 20.—Mrs. Mary Leigh, the suffragette, was released from Mount Joy, today, on account of ill health, due to her refusal to eat and having been fasted for 10 days. Mrs. Leigh was sentenced, August 7, to five years' imprisonment, on a charge of having wounded John Redmond, leader of the Irish parliament, party, with a hatchet, which she threw at Premier Asquith's carriage during the visit of Mr. Asquith to Dublin. Shortly after her incarceration, Mrs. Leigh announced her determination to refuse to partake of food, and the prison officials resorted to the drastic measure of administering nourishment through a tube. When Mrs. Leigh was brought outside the prison hospital in an invalid's chair, she was in an emaciated condition. According to a suffragette journal, her condition was becoming desperate.

BOY WHO MURDERED MOTHER IS PUT ON 30-YEAR PROBATION

SANTA ROSA, Cal., Sept. 20.—Adam Clark, the 11-year-old boy who killed his mother at Windsor, Cal., by putting poison in a coffee can, was placed on probation for 30 years today by the superior court. He was ordered sent to a state reformatory school until 21 years old. If he does not behave himself there, he will be sentenced to the penitentiary without further procedure.

MORE CANDIDATES THAN MONEY AT RECENT PRIMARY ELECTION

Candidates were more plentiful than money at the recent primaries, if the statements of campaign expenses filed are to be taken as an example. The amounts spent by the candidates vary from nothing to \$165.00, all but three of the statements filed with the county clerk to last night being under the \$100 mark.

As a general rule, nominations for petty offices came higher than the more important ones. In other words, it cost more to run for constable than for the state legislature. Several of the candidates spent nothing, as there were a few who had no competition for nomination.

James Stewart, candidate for the nomination for sheriff, "beat him" \$5 to "win guys for distributing leaves."

The campaign cost George G. Bird-sall, sheriff, seeking re-nomination, \$165.00, which is the largest amount reported in any of the 30 statements filed up to last night. F. M. McMahon, for county treasurer, spent \$155.12, while the campaign cost W. T. Kennedy, for county commissioner for the Second district, \$115.90.

Advertising, personal cards, railroad fares, notes, bills, cigars, etc., are the items specified in the statements. (The candidate mentioned \$5 which he said he spent for "miscellaneous and cigars.") William H. Rowe, candidate for justice of the peace, spent 1 cent for a postal card in writing to the county clerk, and 2 cents additional.

Following are the candidates who have filed statements of election ex-

penditures with the county clerk, the office for which they sought nomination and the various amounts.

Statements on File.

Arthur J. Trombly, county superintendent of schools, \$30.00; E. C. Shelden, county clerk, \$24.00; E. R. Sawyer, county surveyor, \$18.30; Thomas E. Small, constable, \$19.75; John F. De-Fries, justice of the peace, 10 cents; W. E. Husted, constable, nothing; Mark A. Skinner, state senator, 25 cents; D. S. Krenn, constable, \$7.00; C. A. Pollen, county commissioner, \$21.00; Van E. Rouse, county commissioner, \$19.55; O. A. Blades, county clerk, \$35.20; John T. Kavanaugh, state representative, \$10.00; H. J. Magnien, justice of the peace, \$5.00; James D. Faulkner, justice of the peace, \$2.00; O. R. Dunnington, justice of the peace, \$38.00; Clyde C. Dolman, constable, \$5.20; David F. Law, coroner, \$40.00; W. H. Gowdy, justice of the peace, \$35.00; J. B. Ellis, justice of the peace, \$23.90; Lela M. Stark, county superintendent of schools, \$5.50; John McCarty, state representative, \$11.10; F. L. Perkins, county assessor, \$35.00; E. L. Bayle, coroner, \$21.00; M. E. Stubbs, county clerk, \$87.65; Edgar Payton, constable, \$27.50; Harvey Gillingham, sheriff, \$44.50; John D. Charlton, county clerk, \$50.90; Samuel J. Bryan, county treasurer, \$24.45; J. Wilson Porter, county commissioner, Second district, \$24.00; W. T. Kennedy, county commissioner, Second district, \$115.90; James E.

(Continued on Page Three.)

Your Gray Hairs Quickly Vanish

A forcing of badness accompanies the discovery of the first gray hairs which, unfortunately, are looked upon as a sign of old age. They are, however, a sign of youthfulness. We all know the appearance of a young man, and from the good impression a youthful appearance makes on others, it is quite reasonable that the hair should give one courage to undertake and accomplish what he wishes. The hair, looking old on account of gray hairs, when a simple remedy will give you your youthful color and youth, in a few days' time.

Most people know that common zinc ointment gets as a color restorer and scalp tonic as well. Our grandmothers used a "Sage Tea" for keeping their hair dark, soft and luxuriant. In Weyb's Sage and Sulphur Hair Remedy we have an ideal preparation of Sage, combined with Sulphur and other valuable remedies for dandruff, itching scalp and thin, weak hair that is apt to fall out or constantly coming out. A few applications of this valuable remedy will bring back the color, and in a short time it will remove every trace of dandruff and greatly improve the growth and appearance of the hair.

Get a fifty-cent bottle from your druggist today, and notice the difference in your hair after a few days' treatment. All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented. Agents, The Robinson Drug Co.

TWO OFFICIALS ARRESTED FOR SMUGGLING

U. S. Customs Inspector and
Steamship Offices in Opium
Importing

WHOLESALE FRAUD ALLEGED

Men "Lower Down" Testify to
Assisting in Contraband
Conspiracy Plot

SAN FRANCISCO, Sept. 20.—Robert Donaldson, assistant superintendent of navigation of the Pacific Mail Steamship company, and Henry Gallagher, United States customs inspector, were indicted tonight by a federal grand jury, charging complicity in an opium smuggling conspiracy in which, it is said, many other men are implicated. Warrants for their arrest have been issued, and they are being sought by government officials.

The indictments were based upon testimony of David Powers and Emil Fiedler, who were arrested in Oakland, December 13, 1911, with several hundred lbs. of contraband opium in their possession.

Powers testified before the grand jury today that he had been approached by Donaldson in December, 1911, with a proposition to assist in landing 320 lbs. of opium, then consigned to the Pacific liner "Siberia". Gallagher, according to the witness, first appeared in the plot in connection with the defection of a Chinese accomplice, Powers and Fiedler were arrested.

"TAFT AND T. R. AGREED"—BRYAN

BUTTE, Mont., Sept. 20.—William J. Bryan closed tonight his campaign trip through Montana with a speech before a large assemblage in a local theater. He will go into Idaho tomorrow.

Mr. Bryan tonight repeated his plea for the election of a Democratic candidate, as well as a Democratic president, so that party politics and dodges might be given force.

One reason why he attended the Chicago Republican convention, Mr. Bryan said, was that he had become accustomed to one exciting convention every four years, and that, "fearing our convention might be tame, and knowing that the Republican would not let me go with an abundance of caution rather than risk the loss of my quadrennial stimulus."

ROZMAN, Mont., Sept. 20.—Declaring that when presidents and ex-presidents fall on honest people come to their own, William J. Bryan in a address here tonight, made a scathing denunciation of Colonel Roosevelt, saying that the latter had come into the vineyard of progressivism at a quarter to twelve.

He declared that more trouble had come into being in the Roosevelt administration, when he had a chance to

SPRINGS LANDS BIG NAT'L MEET

State Historical and Natural History Society
PUBLIC HEALTH ASSN.

In Session in Washington De-
cides to Come Here for
Next Meeting

WASHINGTON, Sept. 20.—The annual convention of the American Public Health association, which has been in session here for three days, will meet next year at Colorado Springs.

The above dispatch was received from Washington last night and means that another great national meeting will come to this city for next year. The convention is a large one, some 1,500 delegates from all parts of the United States being in attendance this year. The Chamber of Commerce publicity committee and committee on conventions has been after the health association and have sent considerable literature and many views to the convention for consideration.

Colorado Springs, as a meeting place for such a body, will be an ideal convention city. The various institutions in this locality that are noted for their scientific management, the health-giving climate, and the splendid climatic advantages and possibilities for investigation, all add to the value of this city as the meeting place for the health congress.

control them than ever before. He denounces the proposed trust control by a bureau as a method advised by George W. Perkins.

Mr. Bryan took issue with Colonel Roosevelt's reply at Denver to his statements regarding a third term by saying that if no limits were placed on the holding of nonconsecutive terms a president easily could elect his successor. He said that this had been the implied agreement between Mr. Taft and Colonel Roosevelt at the time of President Taft's election.

He declared that the "steam roller" that had run over Colonel Roosevelt at Chicago had been constructed in 1908, and stated that Wall Street had failed to carry out the program at Baltimore that it had put through at Chicago.

Mr. Bryan attacked President Taft's tariff board policy, and said that the United States has a president who did not trust the people who had elected him.

Mr. Bryan praised Governor Wilson as the people's candidate, who has intelligence, moral courage and sympathy with the people.

BRADLEY IS AGAIN BOURBON CHAIRMAN

DENVER, Sept. 20.—The new Democratic state central committee, organized today, selecting George Bradley, chairman. Before the meeting of the committee, the candidates for state offices, at a caucus, decided to support H. A. Hoke, a progressive Democrat, for the governorship.

The committee elected Charles H. Beckwith, secretary, and Mrs. H. C. Hoke, chairman.

SEVERAL RECOMMENDATIONS FOR BETTERMENT OF WATER SYSTEM

Contemplating the betterment and protection of the Colorado Springs watershed and the water system proper, and suggesting the employment of one or more competent hydraulic engineers to act in an advisory capacity, the committee of the chamber of commerce sent a special report to the city council yesterday. The report was read and referred to the water department with instructions to report back to the council.

W. H. Spurgeon is chairman of the committee, and the other members are William Lennox, H. A. Smith, E. D. Marr, David Elliot, R. F. Webster and H. C. Hall. The report suggests that steps be taken to reinforce the dam of reservoir No. 4 and make it safer; that recommendations be made as to the best methods of preventing the polluting of the city water system; protecting the supply from Lion, Cabin and Sheep creeks, and eliminating possible contamination of the water which passes through Manitou. Another recommendation is that the caretaker's house for reservoir No. 5 should be relocated, so that he can exercise a greater degree of watchfulness over the valves supplying the town of Victor.

The report further suggests that the matter of seepage, or loss of water, from reservoirs Nos. 4 and 5 should be considered with respect to feasibility, possible cost and best means of accomplishment. The committee suggests the experts

JOHNSON SAYS TAFT WILL RUN THIRD

Addresses Executive's Fellow
Citizens Says Wilson Is
Untried Politician

CINCINNATI, Sept. 20.—Governor Hiram H. Johnson of California, entered the home city of President Taft tonight and told his fellow townsmen that the nation's chief executive will run third in the coming election.

"Each day," said the vice presidential candidate, "it becomes more evident to me that President Taft is entirely eliminated from this fight. I now have visited 18 states, and everywhere I find the sentiment the same. I think he will finish third."

"And so with this president eliminated, you have to choose between two candidates."

Of Governor Wilson as a man I have taught but some of commendation. He may be a very fine gentleman, but he is untried. His strength in a great crisis has not been shown. The meeting was held in Music hall. This was the first Progressive meeting held here since the party was organized.

IMPORT JAPS TO BREAK UP STRIKE

BINGHAM, Utah, Sept. 20.—The third day of the strike of the copper miners has failed to bring out any new developments in the situation. Prospects for a settlement were as far off tonight as when the strike first began. The strikers have crowded the streets all day but have made no demonstration, not even when the Utah Copper company imported 200 men this afternoon who are supposed to be strike breakers. Not a shot had been fired in the camp today and the district is quiet tonight.

The sheriff's forces now comprise 250 men, most of whom are armed with rifles. It was said early tonight that an attempt would be made to open the workings at 11 o'clock, but up to that time there were no indications of men going to work.

Twenty Japs are imported. The first move toward manning the company's property, whose 2,000 employees went on strike for higher wages, was made this afternoon, when 20 men, white and Japanese, were brought over the Denver and Rio Grande railroad and escorted by deputy sheriffs to the company's hotel near the mines.

The strikers showed the advance guard of the non-striking workers, with apparent indifference, although they had been jeering about the railroad station all day with the avowed purpose of dissuading incoming laborers from going to work.

Earlier in the day there was a movement of trains over the tracks on the Utah Copper, under guard and the engineers and firemen at a called meeting, decided unanimously to continue at work if they were assured protection.

Governor Will Protect.

Such assurances were given by General Manager Jackling and Sheriff Sharp, who in turn, were said to have the promise of the governor that the power of the state would be used to suppress a violence. Headlines the rumors of the day that the strikers might attack trains bearing strikebreakers, to deter them from coming to the mines, the Bingham and Garfield road, owned by the Utah Copper interests.

A report was circulated this evening that the steamboilers at the mine would be started at 11 o'clock tonight on hearing H. C. Lowrey, local member of the executive board of the Western Federation of Miners, said:

Board to Extend Strike.

This was a repetition of a statement made more explicitly early in the day by President Charles H. Moyer at Salt Lake. He declared that a number of the executive board would reach Elko tomorrow to call a strike at the Nevada constructed mine and mill.

Mr. Jackling stated this evening that he had no evidence of impending trouble at any of the properties under his direction.

Seventeen hundred men in the Garfield reduction plants have been idle today because of the stoppage of the Bingham ore supply and the four smelters in this valley will begin reducing forces if the mines remain idle for many more days.

AMERICANS IN BATTLE WITH REBELS

Admiral Sutherland in Charge
of Forces in Nicaragua Re-
ports Engagement

ENGLAND AWAITS RESULTS

Government Officials Think
U. S. Troops Have Put
End to Famine

WASHINGTON, Sept. 20.—Severe fighting between American naval forces and Nicaraguan revolutionists is believed to have occurred in the last few days near Barranca, although reports from the scene are so meager that officials here have no definite idea of what has happened.

Rear Admiral Sutherland is in the field, perforce with upward of 2,000 men, and if plans have not miscarried by this time, he has cleared the route of the National railway of opposing rebels and relieved the famine-threatened city of Granada.

The Washington government, in sending relief to the beleaguered city of Granada, populated by many foreigners, had hoped to avoid any pretext for landing European military or naval forces on Central American soil.

British Await Results.

The British consul general at Managua, and the British vice consul at Matagalpa, have reported two British subjects murdered by the rebels at Archagua. It is expected, however, that the British government, before taking action on its own account, will wait the results of the American campaign. A delayed cablegram from Admiral Sutherland, dated Managua, 11 o'clock p. m., September 17, and reporting that American bluejackets and marines were fired upon by the rebels, was received today. Delayed reports yesterday said the Granada rebel party had been fired upon last Sunday; that the officer in command had been shot and sent to Managua for reinforcements; and that Admiral Sutherland had gone to the rescue with two companies of marines and a detachment of soldiers.

Whether there was more firing from the rebels before the additional American

ALLEGED FRAUD NIPPED IN BUD

MAN POSING RELATIVE
RINGLINGS ARRESTED

Buying Finery for Girl; Couple
Met Tuesday and Were to
Wed Here, Is Said

Before his well-formulated plans could materialize, a man aged about 21, giving the name of Al Ringling, Jr., and claiming to be related to the Ringling Bros., of circus fame, was arrested by the police at noon yesterday for the purpose of passing a worthless check. Incidentally, a supposed big forgery on local business men was nipped in the bud.

With the man was Miss Mahel Church, 16 years old, who lives at 227 East Seventh street, Pueblo. The couple came here Thursday, hiring an automobile in Pueblo, and giving the impression that they had plenty of money. It is said, they met at the state fair last Tuesday and intended to marry here. It is thought.

Yesterday morning the couple started out on an extensive shopping trip. The man purchased \$55 worth of goods at the Colorado Springs Dry Goods company, consisting of a \$45 hat and other finery for Miss Church, including silks, gloves, etc. About \$125 worth of merchandise for the girl was bought from Gus Stalnaker, furrier, including an \$85 sealskin coat and other furs. The total amount of goods purchased at both places came to \$208.

He showed a check for \$1,500 on a Manila, I. O. bank, and said he would go to the telephone office and procure identification so that the different articles could be paid for and taken away. They were laid away, but before he returned with the necessary identification, the police took a hand in the game and escorted both the man and woman to the police station. The goods purchased were not delivered.

"Name Fictitious."

The police do not believe that the man's name is Ringling. Several business cards were found in his pockets, with the words, "Manilla, Iowa," engraved upon them, while the name "Al Ringling" was scratched, and engraved

MILLIONAIRES ARE HELD RESPONSIBLE

Aviation Meet Manager Says
No Safeguards Made to
Protect Birdmen

CHICAGO, Sept. 20.—The officials in charge of the aviation meet, are all millionaires and none of them know the first thing about aviation. They know every rule to safeguard the lives of the aviators.

William Pickens, manager of the aviation meet, so testified at the banquet today of Howard W. Hill of Baltimore, who was killed at the aviation meet at Glenn last Saturday, when his biplane collided in the air with a monoplane driven by George Mostach, a French aviator.

"If the officials had been more interested in the moves of the aviators instead of parading around displaying badges and showing their authority, the accident could have been avoided," Pickens testified.

"Gill told me before he went into the air on the day of his death that he was displeased with the way the meet was being conducted. I don't like this kind of flying at night. Gill told me there is going to be a serious accident as the result of it."

Good Flights Are Made.

Flying in a biplane against wind, W. C. Robinson at the aviation meet in Grant park today remained apparently stationary for several minutes at a height of 4,000 feet, although he was spending the force of his engine in further ascending.

Marcel Tournaire, a French aviator in a monoplane, thrilled the crowds by sailing over the course at almost two miles a minute. J. C. (Bud) Marx, limping from a recent aeroplane accident, was lifted into a monoplane in which he executed that course.

Other events were:

Making figure eight five times in hydro-aeroplane; Anthony James, won 2 minutes and 5 seconds. Beck with Harems, second, 3 minutes and 35 seconds.

Flying 16 miles over Lake Michigan; Havens won, 16 minutes 5 seconds; Glenn H. Martin, second, 18 minutes 40 seconds.

Aviators tonight made an agreement to refuse to fly when the condition of the air is dangerous and not to give exhibition flights without pay during the rest of the meet.

Bishop Denies He Kidnaped Girl in Alienation Suit

TACOMA, Wash., Sept. 20.—Bishop Edward J. O'Neil of the Catholic diocese of Nisqually took the witness stand today in the trial of the \$10,000 damages suit of Mrs. Lizzy Magnusson against himself, Rev. G. Van Goudem and the Sisters of Visitation academy for the alleged kidnapping and alienation of the affections of Mariette Reiman, Mrs. Magnusson's daughter.

Bishop O'Neil testified that as soon as he learned the girl was sought by the authorities, he instructed Father Van Goudem to discontinue his efforts about her. He added that he and Van Goudem, in the proceedings in the superior court in San Francisco, of any other legal move for her release until the present action was begun. Had he known the facts previously, he said, he certainly would have intervened.

Father J. O. O'Brien and Father H. McKee testified, denying the statements of witnesses for the plaintiff concerning efforts to draw Mrs. Magnusson and a friend to meet for information as to the child's whereabouts.

50 F. O. R., a former mayor of Tacoma, testified that he had seen Mrs. Magnusson tender love in her room house in America and had seen Mariette Reiman very drunk and shake off several advances testified to the good character of Sister Augustine of the Sisters of Visitation, who was alleged by Mariette Reiman to have manifested affection for her in an improper manner.

CANVAS BOARD QUILTS JOB

DENVER, Sept. 20.—The state canvassing board adjourned today, having up for the present the task of canvassing the primary vote. Twenty-one counties have sent in no official returns.

THIEF LOOTED MORGAN'S HOME WHILE ALL SLEPT

NEW YORK, Sept. 20.—Burglars of the mission of J. P. Morgan, Jr., while Mr. Morgan and his 40 servants slept, have been confessed, the police say, by John Bernauer, whom they arrested last today. In his possession, were found seven watches, medals, diamond pins and other articles of jewelry stolen from the house.

The burglars took place last Monday, but news of it was not made public until some time afterwards, when Mr. Morgan notified the police that he would pay a reward of \$5,000 for the recovery of the stolen articles, many of which were priceless because of their associations.

The prisoner gave his name as John Bernauer, said that about 4 o'clock on the morning of January 25, while residing in the 15th St. of the Morgan house, he found one of the back doors unlocked. He went into the vestibule and took off his shoes. In stocking feet, he visited almost every room in the big house, finding servants asleep. He found little attractive to him and he reached Morgan's room. He crept up to a bureau and unlocked three drawers.

REBEL PRISONERS IN U. S. RELEASED

HOLD OROZCO'S FATHER
FOR EXTRADITION?

Smuggling Conspiracy to Be
Charge of Mexican Govern-
ment Against Captives

EL PASO, Tex., Sept. 20.—All but two of the six rebels who escaped to Presidio, Texas, before the battle of Chiniqua, were released today by the United States commissioner at Marfa, Tex., where they were brought for trial. One was detained because of a smuggling conspiracy, and Col. Jose Cordova, General Orozco's private secretary and favorite advisor.

They probably will be brought here for trial, it being said that the Mexican government will plead for the extradition of both. Colonel Orozco is also wanted in the federal court here to face a long-standing charge of conspiracy to smuggle arms and ammunition into Mexico.

Nothing has been heard here from General Orozco and his 1,200 followers since the rebels left the Chiniqua district and moved toward Chihuahua state line to the east.

MARFA, Tex., Sept. 20.—Colonel Pascual Orozco, Jr., and his five companions, advisors of Orozco, Jr., leader of the Mexican rebellion in the north, who were captured by United States troops at Presidio, Texas, were found guilty of neutrality law violations at their hearing today and were released.

The other Orozco and Jose Cordova, however, were rearrested at the request of the Mexican consul at El Paso. An effort will be made to obtain their extradition to Mexico on a charge of murder. They will be taken to El Paso for hearing.

Suffragette, Self Starved, Released

DUBLIN, Sept. 20.—Mrs. Mary Leigh, the suffragette, was released from Mount Joy today on account of ill health, due to her refusal to eat and having to be fed forcibly.

Mrs. Leigh was sentenced August 7 to three years imprisonment on a charge of having wounded John Redmond, leader of the Irish parliament, party with a poison, which she threw at Premier Asquith's carriage during the visit of Mr. Asquith to Dublin.

Shortly after her incarceration Mrs. Leigh announced her determination to refuse to partake of food, and the prison officials resorted to the drastic measure of administering nourishment through a tube.

When Mrs. Leigh was brought out of prison, she was in a very weak condition. According to a statement made by the prison authorities, her condition was becoming desperate.

Boy Who Murdered Mother Is Put on 30-Year Probation

SANTA ROSA, Cal., Sept. 20.—John Clark, the 17-year-old boy who murdered his mother in Washington, D. C., last year, was placed on probation for 30 years today, after a superior court judge ordered him to a state reformatory for 10 years.

It is said that the boy's father there, in all his sentences, to the penitentiary without further procedure.

MORE CANDIDATES THAN MONEY AT RECENT PRIMARY ELECTION

Candidates were more plentiful than money at the recent primary election in the state of New York, and the voters were left with a choice of candidates for the various offices.

Statements on the part of the candidates for the various offices, including the governor, lieutenant governor, and the members of the assembly, were made today.

REFORM ROSS WITH A CLUB, SAYS I. R.

Improvement Impossible From
Inside, Is Statement in
Nebraska Speech

OMAHA, Sept. 20.—Charles D. Ross, Nebraska reformer, said today in a speech in the Republican party, that the only way to reform the party was from the outside.

GANGSTERS WILL KEEP RULE

Progressive Leader Tells of
Reasons for Quitting Re-
publican Party

OMAHA, Sept. 20.—Charles D. Ross, Nebraska reformer, said today in a speech in the Republican party, that the only way to reform the party was from the outside.

He said that the party was controlled by gangsters and that the only way to reform it was to elect a new party.

He said that the party was controlled by gangsters and that the only way to reform it was to elect a new party.

He said that the party was controlled by gangsters and that the only way to reform it was to elect a new party.

Rosewater Was the Thief

It was at Lincoln that Charles Rosewater spoke of his decision to leave the Republican party. He began by saying that Victor Rosewater of Omaha, former Republican national committee man, stole the Nebraska delegates to the Republican convention just as effectively as if the delegates had been thrown out. He attacked leaders of the Republican party, adding:

"Imagine Abraham Lincoln in the company of Barnes and Penrose and the other minor people."

"It has been said," he continued, "that well of course this is bad, but you should stay in the party and reform it. The only way you can reform that kind of man is with a club."

"Look what the Republican national committee is doing at this moment. It is selling the man who stole the Nebraska delegates to the party for a price of \$10,000. The man who stole the Nebraska delegates to the party for a price of \$10,000. The man who stole the Nebraska delegates to the party for a price of \$10,000."

Behavior Getting Worse

That the behavior of the party is getting worse, Charles D. Ross said today in a speech in the Republican party, that the only way to reform the party was from the outside.

He said that the party was controlled by gangsters and that the only way to reform it was to elect a new party.

He said that the party was controlled by gangsters and that the only way to reform it was to elect a new party.

Dinner rings are one of the handsomest kinds of jewelry a woman can wear. And any woman will look handsome in one of ours.

The Johnson Jewelry Co.

ALLEGED FRAUD

(Continued From Page One.)

ently was put on the cards recently. The theory of the authorities is that the man obtained the cards from some one who resides in the Iowa town and then placed the name Ringling on them. He claims to be from Chicago. His description and claims to relationship to the Ringling Bros. were wired by the police to the New York headquarters of the circus, and a telegram received in answer late last night states that he is an impostor. The telegram, which is signed by Gus Kelley, chief detective for the circus organization, requests further details. The local officers received word from Pueblo yesterday to arrest a man answering the description of Ringling. According to the Pueblo authorities, he passed a worthless check for \$15 in that city before coming here. The chauffeur has not received pay for bringing the couple to Colorado Springs Thursday and other automobile hire before

TAFT WON'T DEBATE WITH DEBS JUST NOW

BEVERLY, Mass., Sept. 20.—An invitation to President Taft to enter into a joint debate with Eugene V. Debs, the nominee of the Socialist party for president, was declined today by White House officials.

coming here. He claims that the man owes him about \$100. Miss Church was released and allowed to return home last night. Ringling was placed in the city jail to await an officer from Pueblo, who is expected this morning. Since the goods purchased from local merchants were not delivered, the prisoner will be surrendered to the Pueblo authorities for prosecution. Detectives Galt and Gavin made the arrest yesterday, capturing Ringling from the description given by the Pueblo police.

AMERICANS IN

(Continued from Page One)

can force arrived, is not known, but it is possible the brush referred to in the dispatch received today was the one that took place Sunday.

Give Rebels 24 Hours.

Upon his arrival at Barranca, Admiral Southland sent word to General Zeledon, a rebel leader, that he proposed to open the railroad to Granada and keep it open, and that he would give the rebels 24 hours to clear the front.

While Zeledon hesitated, General Mena, former secretary of war of Nicaragua, and the principal leader in the revolution, came northward from Granada, with another large force of rebels and joined him. After a consultation, they sent a formal defiance to Admiral Southland, announcing their purpose to oppose his advance.

Has Only 400 Men.

It is not known exactly how many sailors or marines composed the admiral's force at that time, but it is believed it did not exceed 300 or 400 men. At any rate, in view of the large numbers of rebels in his front, and unwilling to run the risk of temporary defeat, the admiral called for reinforcements from Managua, where it is believed there were still about 1,500 sailors and marines available. That was the situation when the last cablegram was dispatched from Managua, three days ago.

COMBINE FORCES EXPERTS BLOCK TO MAKE ATTACK TARIFF REFORMS

REBEL ARMY OF 2,400 MEN TO MOVE ON FEDERALS

WILSON IN COLUMBUS, O. TALKS ON BUSINESS

Unionists Win Battles at San Joaquin and Altan, U. S. Troops Busy

Candidate Denies Party Is Not Interested in United States Commercial Life

DOUGLAS, Ariz., Sept. 20.—A force of 1,700 rebels is within striking distance of Agua Prieta and that town is again threatened, this time by the combined rebel forces in northern Sonora. The rebels were reported tonight at Ceriza Springs, 12 miles southeast of the town. Rojas, the rebel leader, sent word to the federal commander that he expected to have a force of 2,400 men and that he would take Agua Prieta within a few days.

In the battle with Salazar's rebels yesterday, Colonel Obregon took prisoner Maj. Benjamin Aranda, who served under Madero in the revolution last year and who acquired some fame by manufacturing a cannon at Juarez. Under the suspension of guarantees the rebel major and other prisoners may be executed. Complete details of the fight at the San Joaquin ranch yesterday and today transmitted in the official report of Colonel Obregon show that the first battle was the most important fought since the rebels moved into Sonora from Chihuahua. Obregon reported that he attacked Salazar's force of 550 rebels with a force of 11 officers and 181 men, including 25 rurales and the remainder Yaquis. They fought from 3 o'clock in the afternoon until dark, when the rebels were driven to the hills after a fierce hand-to-hand fight.

Early this morning Salazar attacked the federalists but was again repulsed. Eight federalists were killed and 15 wounded, the latter including Lieut. Maximiliano Kloss, who was highly commended by Obregon for his bravery. The rebel loss was 20 killed, 35 wounded and 11 taken prisoners, including a woman, reputed to be Salazar's wife, and 108 horses with saddles captured.

All of the wounded are prisoners. The federalists also secured 150 guns and much ammunition. The battle this morning was not as severe as the previous fight, although a courier brought word to Agua Prieta this noon that Obregon's force had been annihilated. Obregon reported personally from Fronteras by telephone at 2 o'clock. Salazar's rebels are reported to have burned a bridge on the Navojoa railroad, 15 miles south of Agua Prieta, at the same time cutting the telegraph wires.

NOGALES, Ariz., Sept. 20.—It is officially reported from Hermosillo that Colonel Giron, commanding a federal column, met and defeated Emilio Campa near Altan, after which the rebel leader had become separated from his main body. Campa is being pursued southward by Giron's cavalry. Federal cavalry went west from here to intercept Campa while a detachment of United States troops were sent to Oro Blanco to cooperate in the event that Campa crossed the line.

COLUMBUS, O., Sept. 20.—Twelve hours were spent in Columbus today by Governor Woodrow Wilson, but in these were crowded the formal opening of the Democratic campaign in Ohio, a luncheon with Governor Harmon, Representative James M. Cox, the Democratic candidate for governor, and state leaders, and a series of speeches and receptions. It was a strenuous windup to the presidential nominee's first week of consecutive campaigning. As he started back to Sea Girt, N. J., tonight, he said he was more than pleased with the thrill of campaigning, and with the enthusiastic greetings he had received.

Sees Political Organism. Enthusiasm and demonstration spread through the day's events. For the first time in his life, the governor said, he saw what a political organization looked like. He saw the precinct organizers, the county leaders, and the state executives, and with them hundreds of coworkers.

From the meeting of the Democratic organization the governor went to the chamber of commerce and addressed a meeting of educators from all parts of Ohio.

The candidate then addressed a meeting of several hundred business men.

Commercial Man Kiri. "One of the most amazing fictions of our politics," said the governor to them, "is that the Democratic party is not interested in the business life of the United States. When you reflect that the Democrats of the United States comprise about half the population, it is very interesting that half of the population should be suspected of the desire to commit commercial hari kari."

In attacking the idea of a board of experts to handle the tariff question, he said conditions were constantly changing with the tariff, as often, sometimes, as every 24 hours.

Experts Delay Results.

"You cannot touch one tariff schedule," he added, "without having incalculable results in other schedules. I suppose that when you deal with the woolen schedule, for example, you supposed that was all the woolen men were interested in. But the woolen men, if I may credit what I have read in their reports, are almost as much interested in the chemical as in the woolen schedule."

Bodies of experts to guide legislation have always been the machinery of one thing, and that is delay. Governor Wilson tonight addressed a throng that filled Memorial hall, the most spacious of the city's auditoriums. Governor Harmon presided. Outside there was an overflow meeting, where the governor made another speech.

REFORM BOSS

(Continued From Page One)

this campaign," said the colonel, "has been that Mr. Bryan has said we have stolen our issues from the Democratic platform. I would not have it as a gift. If the Democrats should win," he added, "wherever the Democratic president might be, the congress would be the same old congress chosen by the same old set of bosses."

More than one-half of the noncommissioned officers and men in the English army belong to the Church of England, there being 167,281 communicants of the 237,722 men.

UNLIKE FELLOW RICH, WILL SUE IN OPEN COURT.

NEW YORK, Sept. 20.—Mrs. Lucy Drexel Dahlgren, daughter of the late multimillionaire, Joseph Drexel, will not follow the custom of the ultra-rich and have her divorce tried secretly behind closed doors of an appointed referee. Her attorneys have applied to the supreme court for permission to have the divorce framed so that they may be presented to a jury in open court. Mrs. Dahlgren is the wife of Eric B. Dahlgren, son of Rear Admiral Dahlgren of Civil war fame. Eric Dahlgren has filed an answer in which he denies the charge of misconduct.

Experts Delay Results.

"You cannot touch one tariff schedule," he added, "without having incalculable results in other schedules. I suppose that when you deal with the woolen schedule, for example, you supposed that was all the woolen men were interested in. But the woolen men, if I may credit what I have read in their reports, are almost as much interested in the chemical as in the woolen schedule."

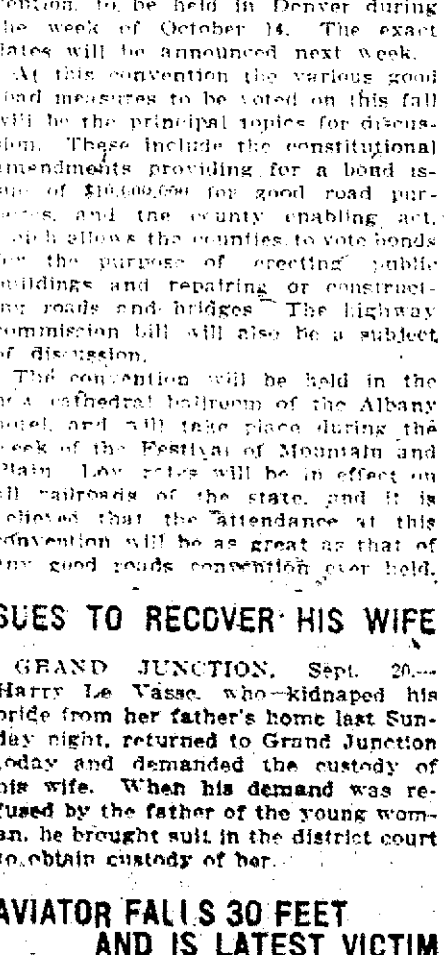

Bodies of experts to guide legislation have always been the machinery of one thing, and that is delay. Governor Wilson tonight addressed a throng that filled Memorial hall, the most spacious of the city's auditoriums. Governor Harmon presided. Outside there was an overflow meeting, where the governor made another speech.

REFORM BOSS

(Continued From Page One)

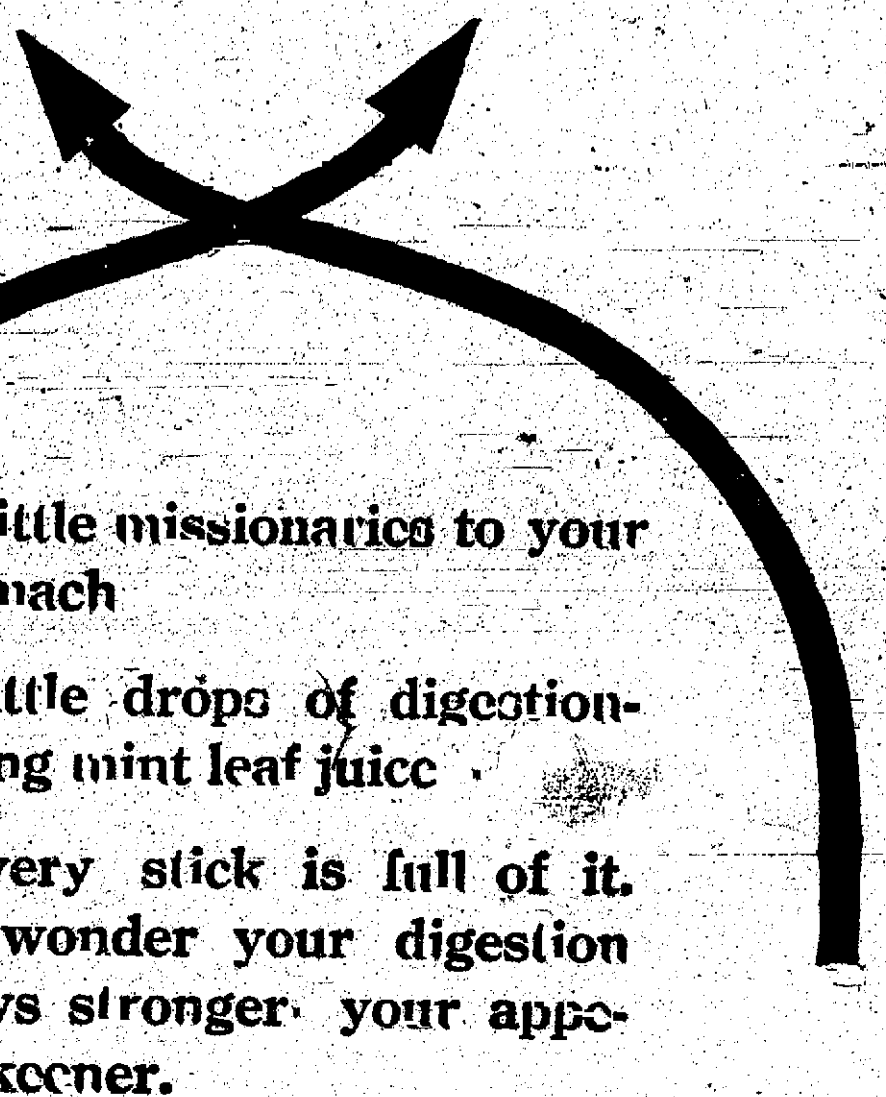

this campaign," said the colonel, "has been that Mr. Bryan has said we have stolen our issues from the Democratic platform. I would not have it as a gift. If the Democrats should win," he added, "wherever the Democratic president might be, the congress would be the same old congress chosen by the same old set of bosses."

More than one-half of the noncommissioned officers and men in the English army belong to the Church of England, there being 167,281 communicants of the 237,722 men.

UNLIKE FELLOW RICH, WILL SUE IN OPEN COURT.

NEW YORK, Sept. 20.—Mrs. Lucy Drexel Dahlgren, daughter of the late multimillionaire, Joseph Drexel, will not follow the custom of the ultra-rich and have her divorce tried secretly behind closed doors of an appointed referee. Her attorneys have applied to the supreme court for permission to have the divorce framed so that they may be presented to a jury in open court. Mrs. Dahlgren is the wife of Eric B. Dahlgren, son of Rear Admiral Dahlgren of Civil war fame. Eric Dahlgren has filed an answer in which he denies the charge of misconduct.

Little missionaries to your stomach

Little drops of digestion-aiding mint leaf juice

Every stick is full of it. No wonder your digestion grows stronger, your appetite keener.

Like all greens, this juice is wonderfully beneficial. It purifies breath and preserves teeth besides.

BUY IT BY THE BOX

of any dealer. It costs little by the package but less by the box.

TO ISSUE CALL FOR GOOD ROADS MEETING OCT. 14

Y. M. C. A. TOURNEY WILL BE OPEN TO STATE NEXT YEAR

Barbaric Torture Reported to Gov't.

At a dinner given at Tucker's restaurant last night by the Y. M. C. A. to the entrants in the second annual high school tennis tournament, which begins at the Y. M. C. A. courts today, a resolution was passed to throw the tourney open to the high schools of the state next year. Cutler academy, Colorado City high school and Colorado Springs high school were represented and short talks were made by Principal Hill and Coach Bair of the high school, and E. B. Simmons and Dr. Flora of the Y. M. C. A.

A 2 o'clock this afternoon, on the Y. M. C. A. courts, corner of Cascade and Platte avenues, Lawrence Barnes of Cutler academy will play Fred Wolfe of Colorado City. The winner of this match will meet Wilhelm Sheffer of Colorado Springs high school. The winner and runner up in the tournament will receive small individual cups and the Dr. Flora cup will go to the winners' school. The games are open to the public.

WASHINGTON, Sept. 20.—Conditions in Granada, Nicaragua, "are worse than those which existed in the Congo and in the Putumayo," according to state department reports. The rebels have turned upon helpless noncombatants, women and children, and their warfare is characterized by a return to absolute barbarism. American Minister Welles has received a letter from Padre Rafael Cuadra, minister of finance to President Diaz, and from Carlos Cuadra, the Nicaraguan minister of the mixed claims commission, in which, in the name of humanity and civilization, they beg Minister Welles to do all that he can to protect their families who are being ferociously persecuted at Granada.

URGENT PROSECUTION OF U. P. AND TRAMWAY

DENVER, Sept. 20.—The fire and police board today sent a report to Mayor Arnold on the street car wreck of Thursday night, in which a car was hit by a Union Pacific train and two passengers killed. The board holds both the Union Pacific and the Denver City Tramway company guilty of negligence, and urges criminal proceedings against both corporations.

PROGRESSIVES ALLOWED TO PETITION NOMINATION

BENTON, Nev., Sept. 20.—In a decision handed down last night, the supreme court sustained the right of the Progressive party to have its candidates nominated by petition placed on the official ballot under the heading, "Progressive Party."

Of the British trees, the longest lived is the yew, one specimen of which has attained the age of 2,550 years; an oak with a record of 1,600 years follows the yew tree.

The Best Way? Go To Your Doctor. No sense in running from one doctor to another! Select the best one, then stand by him. No sense in trying this thing, that thing, for your cough. Carefully, deliberately select the best cough medicine, then take it. Stick to it. Ask your doctor about Ayer's Cherry Pectoral for throat and lung troubles.

"THE GRANDEST ONE-DAY TRIP IN THE WORLD" CRIPPLE CREEK SHORT LINE. It is the way that this railroad climbs up, around and over the tops of the mountains, that has made it one of the famous scenic trips of the world.

ANGLO-RUSSIAN TREATY TO BE REVISED IS LATE REPORT

LONDON, Sept. 20.—The Anglo-Russian agreement of 1907 has been found, as a result of changing conditions, not to have worked altogether satisfactorily.

It is hoped that the conference of the coming week between Sergius Sazonoff, the Russian foreign minister, and Sir Edward Grey, the British secretary of state for foreign affairs, will so revise it so as to make easier the task of mutual cooperation, particularly in Persia, the Balkans, Tibet and Mongolia. There will receive the greatest attention, the agreement of 1907 having failed to reestablish the stability of that country.

When M. Sazonoff stepped from the train on arriving in London today, a man rushed toward him, shouting, "Down with Russia!" at the same time displaying a poster on which was printed "Russia must evacuate Persia if she wishes to retain England's friendship." The man was seized by the police but subsequently was released. He said he was a member of the Anglo-Persian committee.

SATURDAY, SEPTEMBER 21, 1912.

THE DIFFERENCE.

ACCEPTING the estimates of the Democratic press of Denver as truthful, 3,500 people heard Bryan at the recent meeting in the Auditorium in that city. Twelve thousand people heard Roosevelt and as many thousands more attempted to and could not.

At Colorado Springs 2,000 people heard Mr. Bryan at Temple theater.

Thursday 8,000 heard Colonel Roosevelt and at a day meeting.

The same ratio in the matter of enthusiasm prevails all over the United States. The people have had a surefeit of the song of the old parties. It reminds one of the music boxes that play but one tune and play that perpetually.

We have been told time after time that our forefathers builded well. In some instances the most enthusiastic followers of tradition have suggested that they built "Divinely."

They did build well, but they realized in the building that the lapse of time would work changes; that according to all human history the strong would prey upon the weak and that if would require the attention of the people to protect the weak.

With this in view, even the framers of the Declaration of Independence, a remarkable document, one of the most profound and greatest in the world's history, provided for a period such as we are entering or passing through at the present time. Here is what they said:

"We hold these truths to be self-evident; that all men are created equal; that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty and the pursuit of happiness. That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that, whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute a new government, laying its foundation on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness."

This can mean but one thing: "Whenever government fails to derive its just power from the consent of the governed it should be altered or abolished."

Right at this time the people are preparing to alter it—so that the government of the people may be returned to the people.

Colonel Roosevelt and the Progressives are advocating a government in which the people shall rule and this is the reason Roosevelt attracts ten to twenty times more Mr. Bryan, the spokesman for Democracy, attracts but one. In other words the people are almost giving Mr. Bryan the ratio he seeks. 16 to 1.

THE COMMUNITY EFFORT.

IN RECENT years no subject has attracted more general or vigorous attention than the question of the relation of communities to each other. Commercial organizations have found that their success in their efforts to organize various communities has depended largely, if not entirely, upon their ability to bring together elements apparently not in common with each other.

We use the word "apparently" because it has been determined that after people representing diverse interests are brought together they soon realize that their interests are really in common. In the report of the Roosevelt commission on country life, made to the United States Senate, we find this important paragraph:

"The townsman is likely to assume superiority and to develop the town in disregard of the real interests of the open country or even in opposition to them. The city exploits the country; the country does not exploit the city. The press still delights in archaic cartoons of the farmer. There is as much need of a new attitude on the part of the townsman as on the part of the farmer."

"This leads us to say that the country

ideals, while derived largely from the country itself, should not be exclusive; and the same applies to city and village ideals. There should be more frequent social intercourse on equal terms between the people of the country and those of the city or village. This community of interests is being accomplished to a degree at present, but there is hardly yet the knowledge and sympathy and actual social life that there should be between those who live on the land and those who do not. The business-men's organizations of cities could well take the lead in some of this work. The country town in particular has similar interests with the open country about it; but beyond this, all people are bettered and broadened by association with those of far different environment."

The special feature carried in the above quotation is applicable in every community in the state of Colorado. The towns and cities must render assistance to the farming communities, and the farming communities in turn will do something toward the upbuilding of the towns and cities.

It is purely a proposition of every fellow helping the other fellow. When this policy is pursued, the sum total must be in favor of general progress in all communities.

PASS IT AROUND.

IT MUST be cold comfort for the man who toils all month, and receives barely a receipt for a living as a result of that toil, to read of the marvelous prosperity of the nation.

And yet, the press reports are right that prosperity is really with us. The money is in the banks. The crops are in the granaries or on the way to market.

The trouble is not in the degree of prosperity, but in the unequal distribution of it. The platform of the Progressives declares that "Prosperity Must Be Passed Around." By this it means that with all this wealth the toiler is entitled to a greater portion than he has been getting provided he is deserving of it.

To illustrate: A box of apples, grown in Grand Junction by some fruit grower is picked from the tree and boxed. The farmer hauls it to market and receives 75 cents for it. The railroads charge 42 cents to haul it to New York. The commission man, or middle man takes a profit of 50 cents per box to hand it to the retailer. The retailer takes 25 cents per box profit for delivering it to the consumer.

Summed up the consumer pays \$2 for a box of Colorado apples. Of course this wealth has been distributed, but the real producer, the one who should have earned the real profit, gets but 75 cents and the consumer, who should by right be able to purchase as cheaply as he can above the cost of production, has been obliged to pay the additional \$1.25.

This condition is forcing the people into the ranks of the Progressives more rapidly than any other confronting the people.

AMERICAN MUSIC ABROAD.

From the New York Sun.

The conductor of an orchestra in a local restaurant went to Europe to rest his brain, wearied with the incessant strains of ragtime and the turkey trot, with which he was compelled in the search for a living to supply the intellectual patrons of his high class resort. To his dismay he found that the popular music of Europe had become Americanized, and that in London, Paris, Berlin, Vienna and other great cities the orchestras in the general resorts were playing ragtime and the seductive rhythms of the turkey trot.

The only news in this story is the conductor's discovery of the state of affairs. The state has existed for the last 10 years. The revolution began in the London music halls, where American vaudeville performers with their ragtime songs captured the fancy of the Englishmen. Almost at the same time the invasion of Paris began. The French capital, as every traveler knows, is crowded with American all summer, and these Americans keep the shows in the "champs Elysees" alive. To please the American performers from their own country were engaged, and in a very brief time these had enraptured the Parisians also.

Another fact noted by this returning conductor is that while the worst type of American music is devastating Europe, the best musical performances in the world are to be heard in this country. This, too, is no news. The best opera in the world has been given in this city for some years. The best orchestra in the world has for years past dwelt on the Atlantic seaboard. The best quartets, pianists, singers, violinists and cellists have been making American tours for years.

Moreover the best compositions of all countries are brought to this country and are produced here more quickly than they are anywhere else outside of the countries in which they originate. Germany is not slow to recognize the worth of music from other lands, but it is no exaggeration to say that a wider range is covered in the list of new things made known here. France is third, and England lags behind.

But the same beliefs in regard to the United States continue to be cherished in all these countries as existed 25 years ago. The German, the Austrian and the Frenchman will tell you today, as he told you then, that there is no artistic appreciation in the United States, no discrimination, no taste, no knowledge. He tells you this in spite of the indisputable fact that his own great musicians come here and meet with splendid success.

When he himself for some unknown reason visits the United States and is brought face to face with such institutions as the Metropolitan Opera house, the Boston Symphony orchestra and the Knickerbocker quartet, he utters comments much like those of the man who stared at the cliffs and said: "There ain't no such animal."

THE CHURCH'S WELCOME.

From the Philadelphia Public Ledger.

Frequently men and women who are not at all in a great city complain of the lack of cordiality in the welcome of the churches they attend. Little comments and goings are all but unnoticed. They feel that it makes no difference to anyone

but themselves whether they attend or not. The church seems to them a close corporation run for the benefit of the pewholders. They find the atmosphere chilly, and they have the uncomfortable sense of intruding where they are not wanted, by a social organization that is sufficient unto itself. The exclusive principle of the Blue Book or the Social Register seems to be imported into what is supposedly the house of God. In their resentment they mentally register a vow that they will not venture again where their room is evidently preferable to their company.

But is the fault entirely with the minister and the members of the congregation? In any other case a popular assembly is it expected that the members of the audience will instantly fraternize with each other? If such were the universal custom, many unworthy persons would take advantage of the artificial intimacy. It is not expected that a man goes to church primarily for the social advantages accruing and for the purpose of making friends. He goes, presumably, to worship, to take part in exercises of devotion whose purpose is to satisfy the hunger of the soul. He does not attend to let it be known that he is a person of social consequence, that he wears fashionable attire, that he is worthy to fraternize with the "best" people.

Moreover, most churches do make a particular effort to reach out to the stranger within the gates, realizing that the household names eventually the faithful, and that if they can attract a casual attendant the first time it may lead to a permanent affiliation. Philadelphia nowhere more truly discloses its traditional atmosphere and policy of brotherly love than in its churches. There are few that do not notice the stranger and give him to feel that he will a second time be welcome. If a man goes out at the door of the sacred edifice feeling that he has been snubbed for entering and taking his seat in a selfish company of the elect that did not want him, the fault must be chiefly his own.

The Guilty Party

By RUTH CAMERON.

One hears a great deal of protest from time to time against the owners of houses and apartments and the hostesses of boarding and lodging houses who bar children.

Now it surely must be pretty trying to find one's self shut out of a home which one is perfectly willing to pay for, simply because he has dared to help keep the race alive. But I wonder if the landlords and hostesses deserve all our blame. It seems to me that the ill-bred children and the careless parents who bring down odium on all children deserve at least half the blame. Surely he who abuses a privilege is just as much at fault when the privilege is withdrawn, as he who withdraws it.

A beautiful apartment house was recently put up in our town. Families with children were not excluded and two moved in. One family had three children; they were well brought up and did not cause any trouble. The other family had but one child, a little girl about six years old who had been as thoroughly spoiled as a fond and foolish mother could spoil her.

This child was an inveterate tease and one of her most pleasing tricks was to get out on the lawn in front of the house and then argue at the top of her lungs with her mother at the third floor window.

Dialogues like this were frequently heard into the ears of the other tenants:

"What are you doing down there? I told you to stay in the house."

"I want to go down to Ruth's."

"I told you that you couldn't. Come right back up here."

"I don't want to. Can't I go down to Ruth's for just a little while?"

"No, Margery. Come right upstairs. I'll tell your father if you don't."

"Can I have some candy if I come up?"

"Perhaps so. You come in and I'll see."

I have cut this dialogue rather short on account of limited space, but some of the tenants assured me that Margery and her mother were troubled by no limits, and that such dialogues frequently lasted 15 minutes at a time, interrupting naps, rendering concentration on work or play totally impossible, and generally making things miserable.

The result of this and other displeasing habits of the youngster, quite too numerous to mention, was that two tenants gave notice and the landlord finally had to ask the offenders to leave. The rule has now been made that no families with children will be accepted in that apartment house.

"Isn't that I don't like children. I love them," said the hostess of a boarding house in reference to her refusal to take a family with two children. "It's just that I can't run the risk of getting ill-bred children who will drive away the rest of my guests."

ST. JOSEPH

By GEORGE FITCH.
 Author of "At Good Old Siwash"

Once upon a time St. Joseph, Mo., was one of the great cities of the country with 100,000 citizens and a rate of growth which made Kansas City shrink appreciatively. Since that time it has doubled in size, has built profusely and has become really metropolitan. Its population is now 77,000. The missing 25,000 Saints were removed in 1910 by the cruel hand of the census supervisor, who took all the imagination and portly license out of the census returns of 1900 and restored them to actual people.

St. Joseph is bigger and happier than it was when it was stuffed all out of shape with statistical ghosts, and is one of the four lively towns which are trying to stay beside the restless Missouri river and make it a center of population. It is an old town for Missouri and is full of the old families and well-stuffed bank vaults. St. Joseph has 25 banks and it is not uncommon to see several rival bank cashiers frantically chasing a citizen who is trying to squander a nickel on a moving picture show, instead of putting it out at interest.

St. Jo., as it is familiarly called by its intimate friends, is the fourth largest producer of hog and cattle obituaries in the United States. Its packing houses are so vast that they can be noticed on a windy day for 40 miles. St. Jo. is also one of the most important loading places for passenger trains in the west and commercial travelers from its wholesale houses can be found eating the canned peach desserts of hotels as far west as Walla Walla, Wash.

St. Jo. is progressive and is now provided with the commission form of government, under which the city acts the commission instead of the aldermen. It has been kindly treated by the Missouri river, which is too turbulent for navigation purposes, but which deposits a lake on the outskirts of town on which negative can be held if the waters are kept muzzled. The city has three great parks, the Towle family, Eugene Field, who once worked on a St. Jo. paper and Fifth street, which has a 12-story office building and the Roubidoux hotel, and looks like a big city if you view it from just the right spot.

"Chasing a citizen who is trying to squander a nickel," says the caption of the illustration.

NO. 7 "LA ROCHEFOUCAULD MAXIMS"

Many of us are familiar with the "maxims" of La Rochefoucauld, while we know little of his life and the experiences from which he drew his deductions regarding the relations of life and the mind.

He belonged to one of the proud old families of France and lived during parts of the reign of Louis XIII and of Louis XIV. The world was the school in which he was educated. He knew Cardinal Richelieu and watched the struggle for mastery between him and Anne of Austria. He also knew Cardinal Mazarin and saw his policy after the death of Richelieu.

When the political party called the "fronde" which was the parliamentary party—developed in opposition to the court, La Rochefoucauld took up the cause of the fronde and drew into it the Duchesse de Longueville, with whom he was in love. This movement of the fronde became a corrupt farce, and the great Prince de Conde said its history could only be written in burlesque verses.

The ending of the struggle that this party made saw the end of the infatuation the duchess had for La Rochefoucauld. In one of the battles he was wounded in one eye and for a time lost his sight. By the time he had recovered this the duchess was lost to him, and he retired to his country estates for a period.

In the rebound of his affections he met Mme. de la Fayette, a very brilliant literary woman, and they became deeply attached. For 20 years they enjoyed a high-minded friendship and affection.

Madame de la Fayette was guided by good principles. La Rochefoucauld had strong intellectual force and much wisdom. She once said in regard to their mutual friendship: "He gave me mind and I reformed his heart."

In the letters of Madame de Sevigne, she speaks often of La Rochefoucauld, and always with an indorsement of his goodness, courage and sense. She said also that he had a tender heart. Moliere submitted his comedies to La Rochefoucauld for his approval of them; and among his other friends were the preachers Boileau and Bossuet and the dramatic poet, Racine. He died in Bossuet's arms, after suffering ten years with gout. Madame Sevigne gave, in her letters, all the minute details of his illness and death.

His "Maxims and Moral Reflections" were written after he had seen and studied life. Voltaire said that this work had but one truth running through it which was that self-love is the motive for everything.

Dean Smith said, however, that there are two kinds of self-love. One that of some men, which induces them to please others; that of some other men, which induces them to please themselves.

There is a worldly wisdom, a wit and a fund of good sense in these maxims that make them good daily reading. They have also been largely drawn upon by prose writers and poets.

NEXT WEEK—SEVEN IMAGINARY BEINGS.

PEOPLE MAY VOTE ON DAY OF REST MEASURE

The Day of Rest ordinance, which has been a mooted question here for several months, probably will be submitted to the people for a referendum vote, either at the November or spring election. In reporting on the ordinance to the council, yesterday morning, City Attorney McKesson made recommendations to this effect, and these will be carried out if they receive the approval of the Ministerial association. McKesson believes the referendum vote will be the best means to obtain a fair expression of public sentiment. If passed in this way, the ordinance would have more hearty support from the people and would be less likely to be overthrown by the courts, the city attorney believes. It can be referred at a small expense.

At the council meeting, yesterday, the matter of employing an expert to pass on the proposed purchase of the water rights along the Harmses ditch, by the city, was referred to the water department, with power to act. The cost of such an investigation probably will be in the neighborhood of \$300. In connection with this matter, Mayor Avery said that he would oppose the purchase prices asked. The United States Reduction and Refining company wants \$20,000 for its rights, and C. E. Titus and associates, \$25,000 for theirs.

Attorney McKesson was instructed to report to the council soon on the advisability of referring to the people at the November election the question of issuing bonds to the extent of \$125,000, to refund outstanding waterworks bonds. Rollins & Son of Denver and Boston offered to buy these bonds, but the doubt as to their legality, unless authorized by a vote of the people, held up the sale.

Other matters coming up before the council were an invitation from the Denver Festival of Mountain and Plain board for this city to enter a float at the festival, and an invitation from John T. Burns, secretary of the Dry Farming congress, for this city to send delegates to the session in Lethbridge, Alberta, Canada, October 21-28. Both were filed without action. During the discussion before their filing, City Clerk Chapman raised a laugh by suggesting that the city send a float to Denver bearing a tourist.

T. J. LAKE, MINNERSVILLE, Pa. wrote to me in his 73d year, and like the majority of elderly people, he suffered with kidney trouble and bladder weakness and urinary irregularity. He says: "I have suffered with my kidneys. My back ached and I was annoyed with bladder irregularities. I can truthfully say, one bottle of Foley Kidney Pills cured me entirely. They contain no habit-forming drugs. The Robinson Drug Co."

100 more of the little glove purses have just arrived.

35c, 3 for \$1

HARDY'S

16 N. Tejon

THIRTY YEARS AGO TODAY

SEPTEMBER 21, 1882.
 The Democratic state convention at Denver nominated James B. Grant of Lake county for governor.

Prof. W. D. Gunning, a noted geologist, gave the first of a course of lectures at Court House hall. His subject was "Life Before Man."

The first oyster supper of the season was given by the ladies of the Methodist church, South, at Ashby's old stand on Pike's Peak avenue. A handsome sum was realized, which was to be used for the benefit of the Sunday school.

A young son of William Scott found three boxes of skyrocket and Roman candles on the prairie north of the gang.

TWENTY YEARS AGO TODAY

SEPTEMBER 21, 1892.
 J. A. Hayes, purchased lot 29 in block 17 for \$10,000 from L. R. Ehrlich. This lot is on North Tejon street.

Mr. and Mrs. Charles S. Sprague gave a dinner at their home on College place in honor of H. A. Risley, who was then editor of The Gazette. Various newspaper men and their wives of Colorado Springs and Manitou were the other guests.

The police authorities had adopted the plan of ordering all presumably vicious vagrants to leave the city instead of adding them to the chain gang.

THE HASKIN LETTER

HYGIENE AND SANITATION
 VIII SAVING THE BABIES.

By FREDERIC J. HASKIN.

No part of the program of the International Congress of Hygiene and Demography now being held in Washington will lay hold on the American heart to a greater degree than that which has for its purpose the collection and distribution of the world's knowledge of methods for the prevention of infant mortality. Nearly 300,000 babies under one year old die annually in the United States. Of each thousand babies born no less than 212 die before they pass their second year. Once a baby reaches its third year its chances to live to be 60 years old are better than were its chances to live to be two years old.

That there are tens of thousands of preventable deaths among the 300,000 babies that die in the United States in the first year of life is easily shown. There are a number of lines of indisputable evidence by which it may be proved. Sweden loses 98 out of each 1,000 children under one year old. We lose 165. Did we but take a good care of our babies as Swedes, good parents do of theirs, nearly 120,000 babies would be spared the sadness of having their babies taken away by the hand of death. Did the American mother protect her baby as well as the mothers of Norway protect theirs, more than 140,000 babies a year would live, who now live new made graves.

Not Untried Theory.

What Norway and Sweden have done America can do. The mothers of New Zealand make even a better showing than those of Norway and Sweden. If our number of deaths among babies under one year were proportionate to that of New Zealand, more than one-half of all the babies who die under one year of age would be saved. Statistics everywhere prove that baby-saving is not an untried theory. Where poorer care of the little ones is taken than we take of ours, there the number of baby deaths is proportionately higher. For instance, in Chile the death rate of babies is nearly double our own and more than four times that of New Zealand. In European Russia three babies die where two die in the United States, and in Austria three die where one dies in New Zealand.

But one does not have to look to foreign countries to see the good results which come from baby-saving campaigns. A study of our own progress will show the results of our rising tide of health sentiment under the infant mortality. In 1900 the deaths among infants under one year of age amounted to 25,550 out of each 100,000 born. In 1909 they amounted to 15,540. In other words, in 10 years there was a saving of more than 4,000 babies a year brought about by the improvement of the health conditions of the country.

105 Die Out of 1,000.

Another evidence of what can be done in baby saving is to be found in contrasts between various American cities. In some of them one baby out of five dies before it is a year old. In others only one baby out of 10 dies. In the whole United States 155 out of 1,000 died in 1900. In Boston today it has been cut to 127. All of these things conclusively point to the fact that infant mortality can be averted. All that is required is a strict compliance with the laws of health. Wherever these conditions have been met children have been saved. We often spend \$10,000 to convict a single murderer and some times almost ten times as much. The times almost spent in caring for the babies and teaching how they should be guided over the dangerous roads of infancy would save hundreds of babies from death.

One authority has observed that the benefactions of the rich in the direction of health seem to be on the basis that it is more valuable to cure disease than to prevent it. He says that giving to a hospital is spending money that a handi-capped may be restored to health rather than giving it to the cause of preventive medicine that a few may be protected in their infancy. He declares it is past his understanding that philanthropic people should regard it as more important to discover a not-yet found germ than to

Dangers Lie in the Bottle.

It is certain that for a long time to come the bottle-fed baby will continue in the majority. Most of his dangers lie in his bottle. Not only must the mother be educated to care for the bottle baby, but the contents must be protected before it reaches her. The daily milk supply of Philadelphia is 400,000 quarts. It is handled by 3,000 milk dealers, supplied by 5,000 producers, and brought from four states. Chicago uses a million quarts a day, and it comes from 120,000 cows on 12,000 farms. New York gets its supply from 35,000 farms, located in six states. From all this it will be seen that the proper protection of a big city's milk supply from the time it leaves the cow until it is swallowed by the babies is a job of monumental proportions.

The founding of the National Child bureau with Miss Julia Lathrop at its head, has led many to hope that a new era of baby-care is dawning. The toll of death in that fateful first two years of existence is so heavy and so pathetic that when the facts are fully known it is believed that belated and widespread action for the protection of the babies of the country will follow.

And a beauty of a successful baby-saving campaign is that it would not only save babies, but tens of thousands of adults as well. The lessons of public and private sanitation which must be taught for the salvation of the babies would protect the adult members of the family from germ-carried diseases as well. Purify the milk supply for the baby and it is purified for father and mother and brothers and sisters. Sprinkle the fly for baby's sake and the whole family benefits.

Three Million Born Annually.

According to the best information the census bureau has been able to gather concerning the birth rate of the United States more than three million babies are born in this country each

Jewelry Made by Hand

Carries with it a distinction that makes it quite different from that made by machine, however well it may be done. There is a certain difference, a quality of life likeness, a separate sort of individuality to the hand made jewelry that is apparent in a moment to any observer. Hand wrought jewelry has for years been a specialty with us.

Opera at Burns

October 23 Will
Be a Rare Treat

"The Secret of Susanne," one of the most brilliant operas of Wolf-Ferrari, will be presented by the Chicago Grand Opera company at The Burns, October 23. It is thought that the performance of the Chicago organization will surpass that of the Russian Symphony orchestra at The Burns last spring, successful as that event was from a social and musical standpoint. The western tour of the Chicago company is under the direction of Andreas Dippel, the celebrated impresario, and the cast and scenery will be exactly the same in Colorado Springs as in the New York production. "The Secret of Susanne" was one of the most popular of the operas given last year in New York, Chicago and Philadelphia. It was presented more times than any other opera except "The Jewels of Madonna." It is unusual to have a production of this sort on the road, and the performance here will undoubtedly be the event of the theatrical season.

Biggest Success in Years.

"The Secret of Susanne" is one of the most successful novelties of the operatic decade. Spiritually novel and eminently artistic, an opera that takes rank peculiarly its own, a jewel of a work in which Wolf-Ferrari has invested some of his most fetching melodies, presented with the same fine costuming and appropriate scenic effects that marked its original production; and its presentation in this city will mark a red-letter event in the musical history of the city. It is in fact the quintessence of grand opera, and no opera of the present decade has made a more melodious impression than "The Secret of Susanne." It has been said that this clever and spirited story has inspired this most brilliant modern musician to pen the gayest, wittiest and most melodious music of this time.

"The Secret of Susanne" is not a long opera, and preceding the opera, members of the company will give a concert program, making it in every sense a double bill and a double treat for no members of the concert program will appear in the production of the opera.

The great Francisco Daddi, Alice Zappelli, Alfredo Costa, and a number of other famous artists will be heard in this concert and the most wonderful tabloid opera in the world. Announcement of the attraction and subscription blanks have been generally mailed, a most reasonable scale of prices being made considering the magnitude of the attraction.

Speechless For Thanks

Mena, Ark.—"I find Cardui to be all you represent," writes Mrs. H. R. York of this city. "I suffered from womanly ailments, for nearly two years, before I tried Cardui. I have been so relieved since taking it, I cannot say enough in its praise. It has done me a world of good, and I recommend Cardui to all women." Cardui is over 50 years old, and the demand is greater today than ever. Cardui is the standard, tonic medicine for women of every age. "Would you like to be well and strong? Then take Cardui. Its record shows that it will help you. Begin today. Why wait?"

100 BOOSTERS ON TRIP TO CALHAN.

A hundred Colorado Springs boosters, carrying big badges reading "Greetings to Calhan and eastern El Paso county," went to Calhan yesterday, and celebrated Colorado Springs day at the El Paso county fair. The local men had a special train on the Rock Island, and there also were many automobile parties.

The third "get-acquainted" trip of the local Chamber of Commerce—the first was an automobile excursion in eastern El Paso county and the second a visit by local business men to the state fair at Pueblo—proved a great success. The excursionists were gone all day, leaving here at 9 o'clock yesterday morning and not getting back until 7 o'clock last night.

The program was carried out as arranged, with the exception of the baseball game. One of the teams having failed to show up, a Colorado Springs team was hurriedly organized, and gave battle to the Calhan team.

The agricultural exhibits at the fair this year are very good, and some of them have been secured by the Chamber of Commerce as permanent displays. They will be installed in the association's rooms next week. The quality of the exhibits shows that there will be bumper crops in the eastern part of the county this year.

The committee in charge of the excursion were: Frank Wolff, chairman; L. M. Hunt, A. Taylor Thompson, W. R. McCoy and F. A. Sperry.

An automobile party composed of Mr. and Mrs. H. A. Robinson and Mr. and Mrs. F. H. Faus left Calhan last night for Stratton and will visit the fair there today. Mr. Faus is commercial agent for the Rock Island railroad.

MIDLAND CAMPAIGN FOR NEXT YEAR UNDER WAY

The Midland railroad's winter campaign for summer tourists started yesterday, when that road ordered 100,000 booklets, containing beautiful colored scenic views of the Pikes Peak region and other points in Colorado and the Rocky Mountain country. The booklets will cost \$5,000, and are unique from an advertising standpoint. The campaign for tourists this year by the Midland will be especially strenuous, as the road's successful record this season has set a new standard that will be difficult for it to surpass.

Discuss Prospect Lake Improvements Shortly

Mayor Avery will take up with the park board at an early date the proposition of converting Prospect lake and adjacent city property into a municipal park. Residents of that neighborhood held a conference with the mayor and City Attorney McKesson this week, and made formal petition for the change. They were given to understand that the matter will be taken up with the park commission and their position given consideration. Should the park board look with favor upon the idea, an appropriation probably will be included in the 1913 budget for the improvement.

TRAFFIC STILL HEAVY

The rush of the fruit shipment over the Colorado Midland railroad from the western slope has partially subsided, but a great deal of stock is being shipped from the Grand valley and neighboring country to eastern markets. This business totals at least 30 cars a day, and will continue for three or four weeks, perhaps into the middle of November. Potatoes, of which there is a heavy crop this year on the western slope, will be moved out gradually all through the winter, as there is demand for them.

SENIORS WIN "SCRAP"

Before a crowd of 500 people in Monument park yesterday afternoon, the High school seniors won the annual class scrap from the juniors. The seniors scored two goals out of three, the first going to the juniors because they kept the ball in the seniors' territory for 30 minutes, and the second and third going to the seniors on touchdowns. The class scrap takes the form of a modified football game. Frederick Blair, football coach at the High school, acted as referee. This is the second consecutive victory for the seniors, the upper classmen having won the rush last year.

MAINTAIN OFFICES HERE

The London Mining & Reduction company filed a certificate of amendment to the articles of incorporation in the office of the county recorder yesterday. The amendment was adopted at a special meeting of the stockholders held September 10. It provides that the offices shall be located in Colorado Springs. All of the 10,000 shares of stock was represented.

RESIDENT PASTOR FOR UNIVERSALIST CHURCH

The Rev. William H. McGlaufflin, D. D., superintendent of the Universalist church in America, and the highest official of that denomination, will preach tomorrow morning and evening in Christ Universalist church (Odd Fellows temple) at 11 and 8 o'clock. His morning topic is "The Religious

DR. W. H. M'GLAUFFLIN, Whose Visit Here Will Result in a Resident Pastor for the Universalist Church.

Demands of Today," and for the evening, "Why the Universalist Church?" Dr. McGlaufflin has called a meeting of importance of the local church board, the results of which will bring a resident pastor to this church. Mrs. McGlaufflin, who accompanied the doctor here, and who is a sister of note, will sing both morning and evening tomorrow. They will go from here to Denver, where a reception will be tendered them Tuesday night in the First Universalist church.

"NICKEL FIRST" PHONES ARE IN SPRINGS TO STAY

That the new "nickel first" telephones are giving faster service and more general satisfaction than the kind formerly in use in this city, was the statement of District Manager P. A. Holland last night at the unfavorable criticism of the new apparatus at the meeting of the city council yesterday. The mayor has received a communication saying that the new telephones are unsatisfactory, inasmuch as it is impossible to get the fire or police station unless you deposit a nickel, and these calls are supposed to be free. In answer to this, the company states that it always refunds the money to a customer calling the fire or police department.

It is stated by officials of the company that nearly \$4,000 was spent in changing the system, and that at that time there was no criticism. These new telephones are the standard Bell equipment all over the country, there being no less than 5,000 "nickel firsts" in Denver. It is thought impossible to duplicate the antiquated "nickel after" telephones which were removed last March.

REPUBLICAN COMMITTEE MEETS THIS AFTERNOON

The Republican county central committee will meet at 2 o'clock this afternoon at the court house to elect a successor to P. B. Stewart, who resigned as chairman to enter the Progressive party. The roll was issued Thursday by Secretary D. P. Law.

It is necessary to hold the meeting not later than today, as the state central committee meets in Denver Monday, and the county chairman is ex-officio a member of that body.

Dr. Slocum Will Talk On "The Call of God" At the Colorado college vesper service tomorrow afternoon at 5 o'clock in Perkins hall, President Slocum will address the students on "The Call of God." The special music for the service will be "Holy Father, Cheer Our Way," given by the choir of the college. The organist for this first service will be Miss Ruth Manning. All are cordially invited.

BROADMOOR HOME SOLD Dr. M. W. Reed, for a number of years a practicing physician of western Pennsylvania, and recently of Boston, Mass., negotiated yesterday the purchase of the Duncan Chisholm residence at the northwest corner of Lake avenue and First street. Broadmoor, through the agency of the Bennett-Shellenberger Realty Co. The house is a very attractive one, by Architect MacLaren, with all modern appointments and of good construction. The grounds are large and highly improved. Mrs. Chisholm is about to spend several months abroad, and as Mr. Chisholm's business now requires his presence in the east, the property was recently placed on the market.

CARD OF THANKS

We take this occasion of showing our heartfelt thanks and appreciation for the kindness and sympathy, also the beautiful floral offerings, extended to us in our late bereavement in the loss of our husband, father, son and brother. MRS. RUTH ROSE AND CHILDREN. MR. AND MRS. C. L. ROSE. MRS. WILEY BRAZELTON. MRS. B. J. ROSE.

INTERNATIONAL FIRE CHIEFS COMING HERE

Many fire chiefs, following the adjournment of the International Association of Fire Engineers in Denver yesterday afternoon, came to Colorado Springs last night and will spend today sightseeing in the Pikes Peak region. It is thought that many more will arrive this morning. Chief P. D. McCartin was in Denver last night, and he probably will return here this morning, accompanied by the officers of the international association. The visiting fire fighters who were in town last night called at central fire station to visit the Colorado Springs firemen.

OPEN FORUM TO DISCUSS INITIATORY BILLS UNTIL THE NOVEMBER ELECTION

Beginning tomorrow evening, the Open Forum of Colorado Springs expects to devote most of its Sunday evening meetings up to election time to the consideration of the most important measures that will have to be voted on by the people at the November elections.

There will be 33 such measures coming before the people on election day, remarked one of the committee yesterday, "and most people have no idea as to the contents of the individual bills or the subjects covered by the bills as a whole. Either they will have to vote blindly for or against the bills, or else they will have to get busy and learn a few things about them. We are planning to have the most important bills taken up before the Open Forum, where they can be presented by some man who has made a special study of them, and where the people will have an opportunity to ask questions about points that they do not understand. In some cases we hope to have both sides of a bill presented by a man who is for it and another who is against it. And in every case we hope the people will turn out and ask pertinent questions. If the new method of legislation is to be a blessing to the people, they must accept it intelligently."

City Attorney McKesson will start the ball rolling tomorrow evening with a discussion of the municipal home rule bill, and J. L. Bennett will start the discussion on the recall of judicial decisions, measure. Mr. Bennett discussed this measure before a meeting of the El Paso County Bar association some weeks ago, and is especially well prepared to speak on it.

The meetings of the Open Forum are held in the Odeon theater, just south of the postoffice, at 7:45 o'clock. Everybody is welcome at its meetings.

Detained at Ranch; Wife Worried; Notifies Police

Intending to return that night, John N. Eklund, a prominent contractor of Colorado Springs, left his home at 1230 Glen avenue, last Wednesday morning, to visit a ranch about 35 miles east of the city, which he proposed buying. He was detained by business at the ranch, and was unable either to return or to communicate with his wife until yesterday, when his business was finished and he came back to Colorado Springs. Meantime, Mrs. Eklund, becoming worried, notified the police yesterday morning, and for a time the contractor's disappearance was something of a mystery.

TO RUSH IMPROVEMENTS

At a meeting of the city council yesterday, Commissioner Lawton was instructed to see that the new lighting system is completed as soon as possible. According to the officials of the lighting company, progress is delayed by the fact that the city has not accepted the work thus far completed.

The matter of urging the street car company to remove the unsightly wooden poles, and put up the new ornamental ones, also was discussed. The street car company claims that its work is retarded because the fire and police wires, which are strung on some of the street railway poles, have not been removed. The city authorities hope to have the new lighting system finished before winter.

W. A. Smith, Bridgeton, Ind., is telling his friends and neighbors of his return to health and strength by the use of Foley Kidney Pills, and he says he wants others to benefit also. "I was so crippled with rheumatism I could not dress without help, and had kidney trouble for years. I started using Foley Kidney Pills and now all my trouble has left me and I do not feel that I ever had rheumatism. I rest well all night, and though 58 years old, can now do the work of a man of 35 years. I would like to be the means of others getting benefit from Foley Kidney Pills." The Robinson Drug Co.

First Methodist Episcopal—Corner Nevada avenue and Boulder street. Merle N. Smith, pastor. Morning service, 11 o'clock. Baptism of children. Subject of sermon, "The Church and Youth." Vesper prelude.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish intestines—you always get the desired results with Cascarets and quickly, too. Don't let your stomach, liver and bowels make you miserable. Take Cascarets tonight; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distresses; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery. A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All druggists sell Cascarets. Don't forget the children—their little insides need a good, gentle cleansing, too.

7:30 p. m. Evening service, 7:30 o'clock. Address by Miss Viola A. Trautman, field secretary of Woman's Foreign Mission society. Sunday school, 9:45 a. m. Brotherhood Bible class, 7:30 p. m. Morris, teacher. Class meeting, 12:30 p. m. Junior league, 3 p. m. Epworth league, 6:15 p. m. Intermediate league, 6:15 p. m. Prayer meeting, led by the pastor, Wednesday, 7:30 p. m.

WOMAN'S MOST SUCCESSFUL MEDICINE

Known All Over The World
Known Only For The Good It Has Done.

We know of no other medicine which has been so successful in relieving the suffering of women, or received so many genuine testimonials, as has Lydia E. Pinkham's Vegetable Compound.

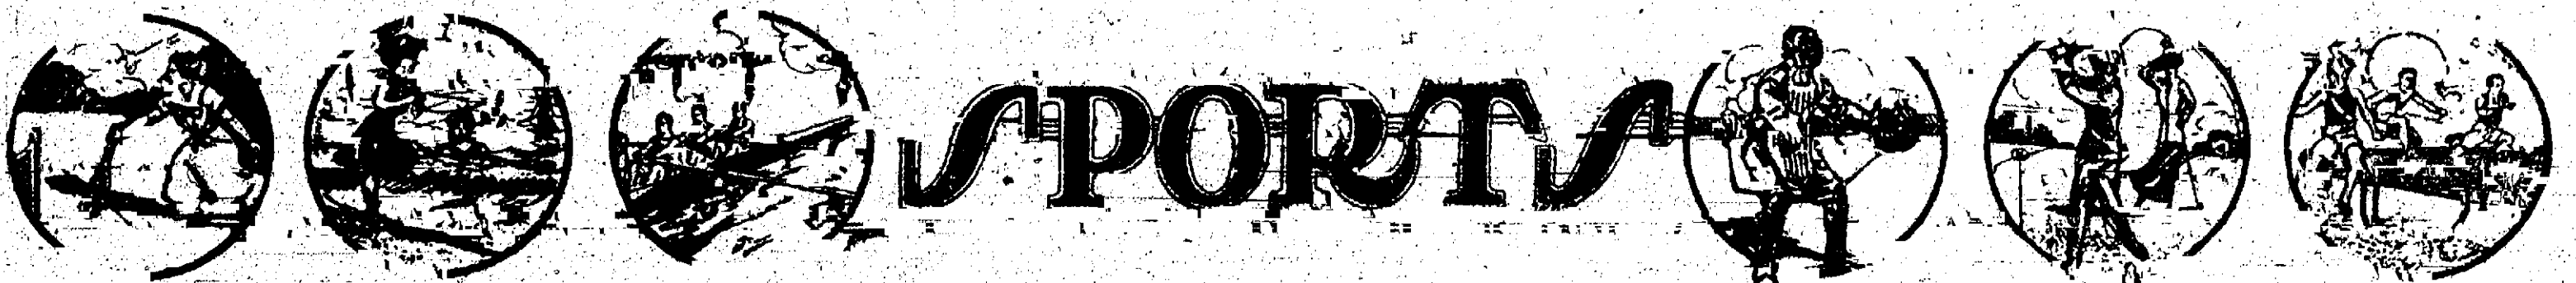

In nearly every community you will find women who have been restored to health by this famous medicine. Almost every woman you meet knows of the great good it has been doing among suffering women for the past 30 years.

In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health, in which many openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound, and many of whom state that it has saved them from surgical operations.

Lydia E. Pinkham's Vegetable Compound is made from roots and herbs and is perfectly harmless. The reason why it is so successful is because it contains ingredients which act directly upon the female organism, restoring it to healthy and normal activity.

Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

HEAVY, FAST CHARGING LINE NEEDED THIS FALL

CHICAGO, Sept. 20.—Upon the call of the line is going to depend the future or success of the football team this fall. There is no other part of the game which is going to have to stand the brunt of the game as much as will the forwards, and unless they are of the highest class, there is not much chance for a winning aggregation. The line men this season must not only be heavy, but they must be fast. They must be able to charge into play and break up before they are fairly started.

ROTHGEB WILL TRY OUT NEW ALIGNMENT

The Tigers open their season this afternoon, with a game with the freshmen, and this game will be much the nature of a tryout, both of the new rules and of the candidates for the teams. A material addition to the Tiger squad came Thursday, a sophomore, registered and appeared on the side for work. He weighs 174 pounds and is one of the fastest and heaviest on the team. Rothgeb is playing in at tackle and for the other tackle, using Shapcott, another big, fast, heavy man. Bowers has been moved on tackle to end. One other change in the lineup that is of interest is the playing of Koch and Dees alternating at fullback. Koch has never played this position before, but should make the heavy plunging type of fullback that the game demands this year. The probable lineup for the game this afternoon will be: Muncaster and Owers, ends; Ankeny and Shapcott, tackles; Cover and Gerlach, guards; Holmes, center; Randolph or Kamp, quarterback; Emery and Lewis, halves, and Dees or Koch, fullback.

MYSTERIOUS SERVIAN WANTS MATCHES HERE

During the summer, William Ninich, otherwise known as "The Mysterious Servian," drifted through town, stopping long enough to announce himself for wrestling matches. Yesterday a letter came to The Gazette from him; he is in Pueblo, repeating his general challenge, and asking for matches with Yusif Hussane and Emory Ryan. Ninich weighs 170 pounds. His letters is as follows: "Very truly yours, WILLIAM NINICH."

STATE FAIR RESULTS

PUEBLO, Sept. 20.—Results of the last day of racing at the state fair follow: The 234 pace—Dillon won; Lady West, second; Holbie Wilkes, third. Time, 2:19.4. Free-for-all trot—Marie Louise won; genuine, second; Daybreak and Ryan the Great, tied for third. Time, 2:16.2.

JOE WOOD LOSES AT LAST

DETROIT, Sept. 20.—Joe Wood of Boston, invincible since early in July, attempted to win his seventeenth straight victory at the expense of Detroit, and failed. In a bitterly fought contest, the locals triumphed. Wood's record of 35 consecutive victories, the league mark established this season by Walter Johnson of Washington. "Tex" Covington, who spent part of this season pitching for minor league clubs, officially was credited with the victory. In the fifth inning he was put out of the game, after an argument with Umpire O'Loughlin, over a ball pitched to Krug. Lake succeeded him and was hit hard.

CHICAGO, 6; WASHINGTON, 1.

CHICAGO, Sept. 20.—Chicago bunched hits off Engel and won the first game of the interleague series with Washington. Washington's homerun resulted from a base on balls, a single and a sacrifice fly. Boehling, a recruit, pitched a good game.

CLEVELAND, 9; NEW YORK, 8.

CLEVELAND, Sept. 20.—New York, by a game, uphill fight, came within one run of equaling the big lead piled by Cleveland. Both sides battled hard, the fielding of Chase and Stephens being the feature. Chapman's base running being the feature.

RAIN AT MILWAUKEE MAY PREVENT RACES

MILWAUKEE, Sept. 20.—Race officials and motoring enthusiasts tonight, on the eve of the eighth scheduled running of the historic Vanderbilt cup automobile race, almost gave up hope of witnessing the contest. Continued rainy weather has made the race course so soft that it has become dangerous. Even with fair weather to-night and tomorrow it was a question whether the course could be put in condition to warrant the race at schedule hour. The waiting thousands found little consolation in the weather predictions issued tonight. These were for colder and unsettled weather.

GET RID OF RHEUMATISM
Rubbing with liniments, blistering the affected parts, plasters, etc., are usually helpful in relieving the pains and aches of Rheumatism, but such treatment does not get rid of the disease, because it does not reach its source. Rheumatism comes from an excess of uric acid in the blood. This acid circulating through the system acts as an irritant to the nerves, muscles and joints, and produces the inflammation and swelling, and sharp cutting pains characteristic of the trouble. Then Rheumatism becomes chronic and not only a painful but a dangerous disease. S. S. S., the greatest vegetable remedy, goes into the circulation, neutralizes and removes the uric acid, and by building up the thin, sour blood, safely and surely cures the disease. S. S. S. makes rich, nourishing blood, which quiets excited nerves, eases the painful muscles and joints and filters out every particle of irritating uric acid from the system. Book on Rheumatism and any medical advice free. THE SWIFT SPECIFIC CO. ATLANTA, GA.

St. Louis	28	54	.342
Brooklyn	28	54	.342
Boston	26	56	.319

NEW YORK, 2-4; CINCINNATI, 4-1.

NEW YORK, Sept. 20.—Cincinnati and New York divided their double-header. By losing the first game, New York suffered its fourth straight defeat—its longest losing streak of the season. Cincinnati took this game in the first inning when four hits off Marquard, with two errors, yielded four runs. In the next five innings, Marquard did not allow a man to reach first. Benton pitched well for Cincinnati, New York making two runs in the sixth on three singles, and an error by Mitchell.

PITTSBURG, 10; BOSTON, 2.

PITTSBURG, Sept. 20.—Pittsburg won from Boston. The game was played quickly on account of the extreme cold. Pittsburg won by hitting Perdue consecutively, together with Boston's errors in the fourth.

ST. LOUIS 9-0; PHILADELPHIA, 4-5.

PHILADELPHIA, Sept. 20.—Philadelphia and St. Louis broke even in a double-header. St. Louis' victory was due to the ineffectiveness of Brennan, who was knocked off the rubber in four innings. In the second game, Alexander was in great form, and he and the visitors reached third. In this game Down and Kilmer were ordered to the club house by Umpire Klein, for disputing a decision.

CHICAGO, 3; BROOKLYN, 2.

BROOKLYN, Sept. 20.—Chicago defeated Brooklyn in a fifth-inning rally, in which the visitors scored three runs after two men were out. Ragon had held Chicago scoreless until then. Sheekard and W. Miller singled and Downs forced W. Miller. Sawyer then bopped to center, scoring Sheekard and Miller, and when Fisher made a wild relay to third, Sawyer scored the winning run.

CHICAGO DRAFTS PITCHER

CHICAGO, Sept. 20.—Pitcher Walding of the St. Joseph Western League was today drafted by the Chicago American league club.

AMERICAN ASSOCIATION

Kansas City, E. St. Paul, 2; Toledo, 3-3; Columbus, 1-2.

COAST LEAGUE

Yonkers, 2; Oakland, 1; Los Angeles, 2; Portland, 4; Sacramento, 4; San Francisco, 4.

Wichita	24	59	.290
Sioux City	21	71	.230
Lincoln	18	74	.198
Topeka	17	81	.174

WICHITA, 10; DENVER, 2.

DENVER, Sept. 20.—Wichita won today's game by a score of 10 to 2. Kinsella, was taken out of the box at the end of the seventh inning. The weather was cold, and loose playing characterized the game throughout.

OMAHA, 2; DES MOINES, 0.

OMAHA, Sept. 20.—Omaha took the long end of a pitchers' battle. Fugate allowed Des Moines but two hits, one of which was a sacrifice.

ST. JOSEPH, 8; SIOUX CITY, 0.

SIOUX CITY, Sept. 20.—Sioux City was helpless before Johnson's pitching, and St. Joseph won. Only one of the Sioux cityans managed to reach second.

TOPEKA, 6; LINCOLN, 1.

LINCOLN, Sept. 20.—Four hits in the first inning, with two errors, gave Topeka five runs, and the lead was too great for Lincoln to overcome. Taylor, who succeeded Turkey, was effective.

TWO RECORDS MADE AT PITTSBURG MEET

FORBES FIELD, Pittsburgh, Sept. 20.—Two new records were established, several were equaled and exceptional good marks were hung up in a majority of the events participated in today by junior athletes from all parts of the United States under the auspices of the Amateur Athletic union. The senior games will be held tomorrow.

TERRORS WILL MEET MINES SEPTEMBER 28

A game has been arranged between the Colorado Springs High School Terrors and the State School of Mines, to take place at Golden, next Saturday afternoon. Last year, when the teams met, the Mines won, 24-0. The Terrors hope to keep this score much lower this year, for they have been putting in some stiff hits in practice lately. The Terrors will play the Tigers in the near future.

TURK BEAT IRISHMAN; WORKED LIKE TROJAN

By IRVIN BRUCE.

Yusif Hussane, the "Terrible Turk," trailed the colors of Mike Donnelly, the Irish "Whirlwind," in the last night at the Temple theater, when the gentleman from old Ireland went down for straight falls. The Turk secured the first fall with a half nelson and not a hold after 40 minutes of the fastest and most exciting wrestling seen in the Springs, and obtained the second fall with a clutch hold in 2:15. The match was a battle royal from the start, each man putting forth his best efforts, the Turk taking the aggressive and trying to wear the Irishman out. Hussane would grab the "Breeze" around the neck and go at a terrific pace around the ring. It was this sort of work that forced the Irishman to tire.

THE WANDERER WINS BIG RACE AT DETROIT

DETROIT, Sept. 20.—Young Ramey May sprang a surprise in the state fair grounds last afternoon, when he drove The Wanderer to victory in the Michigan State stake. Ramey, a Michigan boy, of whom much was expected, failed to finish inside the money. The Wanderer, a yearling colt, who had been the favorite, took the lead in the first half mile, and held it to the finish, in 1:58.4.

WESTERN SLOPE FAIR RACES

MONTEGLO, Sept. 20.—The western slope fair race meet closed today. Results: Free-for-all trot or pace—Topsy Wood won; Fleetsy, second; Reward, third. Time, 2:15. The 234 special trot—Anita won; Claude W., second; Jiggs, third. Time, 2:19.4.

BLUE FLAG MILL TURNS

OUT 125 TONS A DAY NOW

CRIPPLE CREEK, Sept. 20.—The Blue Flag mill has been in full operation a week. The results obtained so far have been satisfactory. The process involved is straight cyanide, the gold being dissolved by air agitation, rather than leaching. The present capacity is 125 tons a day, and the grade of the ore has been of the low class, not averaging more than \$8 a ton. Better than 80 per cent of the values have been extracted in the first ore treated. It is said the ore is oxidized and easily handled with cyanide. There are six existing tanks in the mill, each having a capacity of 60 tons.

The solution is precipitated with zinc, saving in preference to the zinc dust system which is in vogue at the Portland mill.

It is the plan of the Blue Flag company, it is said, to treat all of its ore in this mill, since the early tests have proven to the officers' satisfaction that this mill is a complete success. The plant has been rebuilt, it is declared, at a cost of \$20,000, including the installation of two cyanide mills and six agitating tanks. The Blue Flag mill is now one of the best in the camp. It is one of four which uses the system of agitating the solution in the ore, rather than leaching, the other three being the Stratton's Independence, Portland and Colburn.

It is learned that first tests made in this plant with sulpho-telluride ores have proven that a large per cent of the gold content can be extracted without electrolysis, roasting or concentrating.

While the remodeling and rebuilding of the mill has been going on under the supervision of Mr. John Masson, the development of the mine has been vigorously prosecuted, with the result that ample low-grade ore has been opened in the property to easily keep the mill in ore. This is according to a statement issued some time ago.

FIND VALUES IN GRASS

ROOTS AT KALAMAZOO

CRIPPLE CREEK, Sept. 20.—James Murphy is here from Denver looking after the interests of the Alert Mining company, owning the Kalamazoo claim on Blue Hill. He reports that a good deal of work is being done in this mine. Nick Padlock, who has a surface lease on the south end of the claim, has opened some values at grass roots, but this is not uncommon in this country, and until the ore is developed little can be said about it.

Thirty-five men, working for Owen Roberts, main lessee and sublessee, are engaged in the mining of the Midway Bonanza claim, on Gold Hill, while the production will not average more than five or six cars a month. About the same number of men are working in the Gold King, the first mine of the camp, which is being worked by Mr. Roberts under the profit-sharing plan.

In the tenth level of the South Platte shaft of the Acadia company's estate, leased to Charles Crowder and associates, Sublessee Williams has a good showing. He has opened a 30-inch streak which makes good showings, and the ore from this strike is settling at the rate of \$30 a ton. This is the only new ore which has been found in the mine during the last two weeks. However, the output for this month will run in the neighborhood of 10 cars. A good deal of dead work is being done in this property.

NEW YORK, Sept. 20.—Great activity, breadth and strength attended to day's operations on the stock exchange.

That session in several months the business of the first two hours was on a scale of the old-time "million-shares" days, but the movement lost some of its force in the afternoon on heavy profit taking and extensive short covering.

Taking the day's best prices as a basis, the average level was almost the highest of the year. In fact, two speculative favorites—United States Steel and Amalgamated Copper—recorded their best quotations since 1911. Steel resumed its former leadership in point of activity, being heavily bought in round lots of 2,000, 3,000 and 4,000 shares.

Reading rivaled Steel, with a rise of 3 points. Amalgamated was the next most active issue, so-called Standard Oil brokers being the principal purchasers. Concurrent activity in Amalgamated, which is controlled by a guaranteed, served as a reminder that the quarterly meetings of these companies are far off. Other copper shares were strong, and later in the day the movement took in the independent steel stocks, and almost two solid issues of value.

Aside from Reading and DeLish Valley, the railroad group did not participate to any great extent in the day's movements, although Harriman and ILLI stocks were up 1 to 1 1/2 points, with lesser gains in the Rock Island, Great Northern and Union Pacific.

London sold on our rise, according to reports, some 15,000 shares of Steel, Amalgamated Copper and Union Pacific.
